LVGEA | PERSPECTIVE COUNCIL

NEVADA PUBLIC RADIO 1980 - 2020

2020 Las Vegas Perspective

Volume: Forty

July 28, 2020

So far, 2020 has been one of the most challenging in recent memory, not only for Southern Nevada but for the world at large. A global pandemic, social unrest, and elevated uncertainty have all gripped our community. During these difficult times, we need the thoughtful information and analysis provided by the Las Vegas Perspective more than ever before.

Our theme for this year's 40th annual event and publication is "Together, We Can: Partnering on a Path to Recovery." With this theme in mind, our speakers, commentary, and data are all designed to provide you with a fresh look at our community while charting the course for economic recovery together.

On that note, this year's Perspective will look different and be delivered primarily online. In the pages that follow, we have included the latest market information wherever possible. However, due to rapid changes in our economy, some data sets are reflective of our community prior to the COVID-19 pandemic.

Beyond our newly digital publication and annual event, LVGEA's efforts to deliver valuable economic insight will continue year-round. We'll provide you with a quarterly newsletter – the Perspective Update – full of refreshed data and deeper dives into community and economic recovery issues throughout the year.

This virtual Perspective event would not be possible without the generous contributions of community partners and businesses. The sponsor companies comprising LVGEA's Perspective Council made this valuable publication available digitally and guided its research and thoughtful analysis contained in it.

We are here for you and your business during this difficult time. Not only through this publication, which we hope provides you with valuable data as you go about your business and community life in Southern Nevada, but through our determined efforts to strengthen Southern Nevada's economy together.

Sincerely,

Jonas Peterson
President and CEO

Production and Research Team

About the LVGEA

The Las Vegas Global Economic Alliance (LVGEA) is a public-private partnership focused on growing the economy in Southern Nevada through community development and business recruitment, retention and outreach. The LVGEA's goal is to help residents of Southern Nevada thrive in a global economy by fostering a more prosperous, diverse and connected regional economy.

Vision: To help our residents thrive in a global economy by fostering a more prosperous, diverse, and connected regional economy.

Mission: To grow the economy in Southern Nevada through connectivity, community development and aggressive business recruitment, retention and outreach.

Strategic Imperatives:

- › Lead, Facilitate & Steward Regional Economic Development
- › Elevate Nevada's Position As a Global Business Location
- › Deliver Impactful Marketing & Communications
- › Maintain Operational Excellence

The Applied Analysis group of companies is based in Nevada and provides a wide range of research and analysis services. Applied Analysis performs a number of consultation services, including economic analysis, financial analysis services, market analysis, public policy analysis, hospitality and gaming consulting, litigation support and expert analysis, and information technology and web-based solutions. MyResearcher is our comprehensive data tracking and information reporting web application that provides users access to information that matters most. SalesTraQ, our residential listing and research firm, maintains a catalogue of over 28,000 floor plans in Nevada and New Mexico and provides web-based research capability for the residential sector. Discovery Nevada, an Applied Analysis company, conducts opinion polling and consumer sentiment analysis. To put it simply, we are a solutions resource. Our future is branded by the success of our clients and the quality of our professionals. Our commitment lies therein.

Derrick R. Hill, VP of Cox Business, Las Vegas

Cox Communications is committed to creating meaningful moments of human connection through broadband applications and services. The largest private telecom company in America, the company proudly serves six million homes and businesses across 18 states. The company is dedicated to empowering others to build a better future and celebrates diverse products, people, suppliers, communities and the characteristics that makes each one unique. Cox Communications is the largest division of Cox Enterprises, a family-owned business founded in 1898 by Governor James M. Cox. The commercial division of Cox Communications, Cox Business provides voice, data and video services for more than 355,000 small and regional businesses nationwide, including health care providers; K-12 and higher education; financial institutions; and federal, state and local government organizations. The organization also serves most of the top-tier wireless and wireline telecommunications carriers in the U.S. through its wholesale division.

Chris Way, Vice President and General Manager

KTNV-TV, Las Vegas' ABC affiliate, is home to 13 Action News and KTNV.com. Part of the E.W. Scripps Company (NYSE: SSP), we have served Southern Nevada for over 60 years. KTNV is committed to serving our community with award-winning investigative journalism and the elevation of local initiatives that drive positive change.

13 Action News produces 42 hours of live newscasts per week, and we publish news in real-time across our digital network including KTNV.com, apps/channels on Roku, Apple TV, Amazon Fire TV, Amazon Alexa and via social media. Our investments in people and technology, such as Chopper 13, allow us to respond quickly to news as it happens. For local businesses, KTNV offers a wide range of multi-platform marketing solutions designed to reach broad or highly-targeted audiences.

Dallas E. Haun, Chairman; Terry Shirey, President & CEO; Shannon Petersen, EVP/Corporate Banking Manager

Nevada State Bank is a full service bank offering a complete range of consumer, private and business banking services with branches statewide. Founded in 1959, Nevada State Bank has been the bank of choice for many Nevadans for 60 years. Our personalized attention means we work hard to understand your financial needs so we can offer a complete suite of products and services customized to fit your household and business. We offer complimentary resources tailored to Nevada businesses—visit www.NevadaSmallBusiness.com to access the annual Small Business Survey, monthly economic briefings, expert articles and more. Learn how we can open the door to your future at www.nsbank.com. Nevada State Bank is a division of Zions Bancorporation, N.A. which is included in the S&P 500 and NASDAQ Financial 100 indices (NASDAQ: ZION).

Brian Formisano, Regional Bank President, Nevada Southern

Wells Fargo & Company (NYSE: WFC) is a diversified, community-based financial services company with \$1.9 trillion in assets. Wells Fargo's vision is to satisfy our customers' financial needs and help them succeed financially. Founded in 1852 and headquartered in San Francisco, Wells Fargo provides banking, investment and mortgage products and services, as well as consumer and commercial finance, through 7,400 locations, more than 13,000 ATMs, the internet (wellsfargo.com) and mobile banking, and has offices in 32 countries and territories to support customers who conduct business in the global economy. With approximately 260,000 team members, Wells Fargo serves one in three households in the United States. Wells Fargo & Company was ranked No. 29 on Fortune's 2019 rankings of America's largest corporations. News, insights and perspectives from Wells Fargo are also available at Wells Fargo Stories. Additional information may be found at www.wellsfargo.com | Twitter: @WellsFargo.

Median Household Income

Las Vegas Valley

Median Household Income

The zip code demographics included on the previous pages represent approximately 99.7 percent of the population in Clark County.

Zip codes excluded from the analysis due to limited data availability include: 89004, 89007, 89025, 89033, 89034, 89039, 89087, 89154, 89161, 89165 and 89191.

This map depicts the urban Las Vegas area and excludes zip codes throughout the balance of Clark County. Please note that totals may not equal 100 percent due to rounding. This map is not to scale. Please refer to Data Collection and Limitations on page 200.

Source: Cost of Living Index by The Council for Community and Economic Research, 2019 Annual Average.

About the Index

The Council for Community and Economic Research, C2ER, produces the Cost of Living Index to provide a useful and reasonably accurate measure of living cost differences among urban areas. Items on which the Index is based have been carefully chosen to reflect the different categories of consumer expenditures. Weights assigned to relative costs are based on government survey data on expenditure patterns for professional and executive households. All items are priced in each place at a specified time and according to standardized specifications.

Interpreting the Index

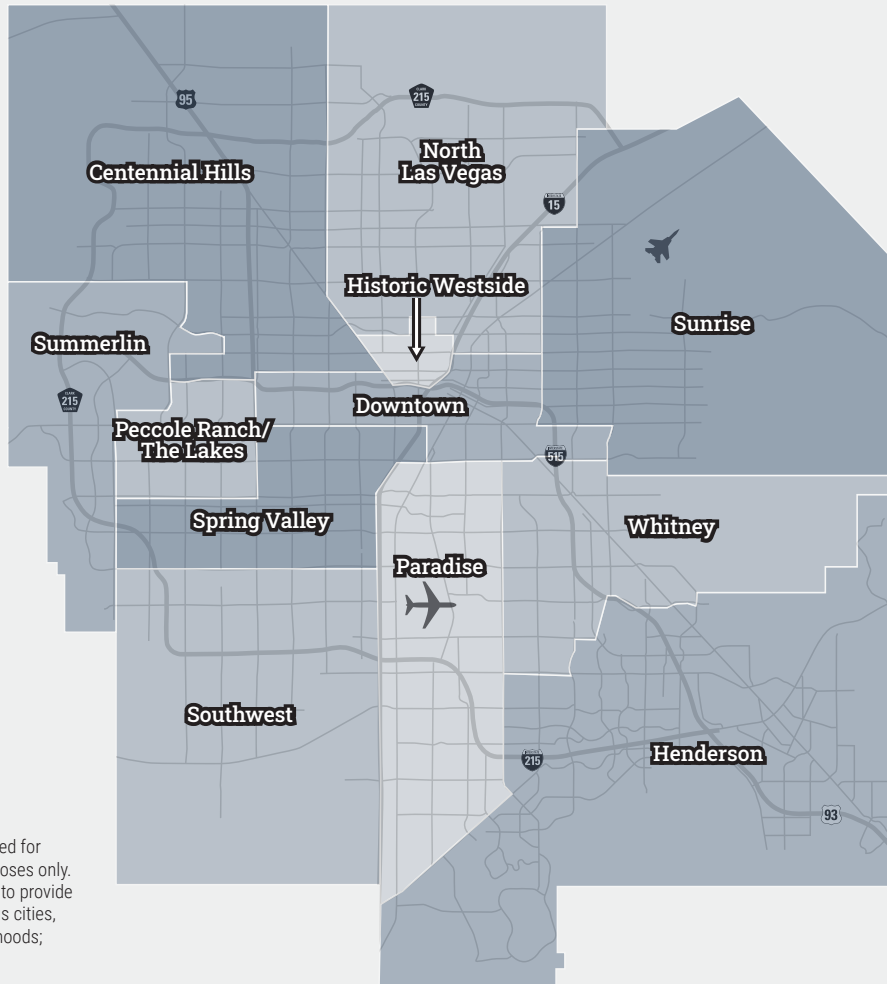

The Cost of Living Index measures relative price levels for consumer goods and services in participating areas. The average for all participating places, both metropolitan and nonmetropolitan, equals 100, and each participant's index is read as a percentage of the average for all places.

GROCERY ITEMS: T-bone steak, ground beef or hamburger meat, pork sausage, frying chicken, tuna, milk, eggs, margarine, parmesan cheese, potatoes, bananas, lettuce, bread, orange juice, coffee, sugar, corn flakes, sweet peas, peaches, Kleenex, washing powder, Crisco, frozen food, frozen corn, potato chips and Coke. HOUSING: Apartment rent for 950 square feet, the full purchase price of a 2,400-square-foot house and current mortgage rates. UTILITIES: Monthly electricity, natural gas, heating oil (if applicable) and telephone. TRANSPORTATION: Includes auto maintenance and gasoline. HEALTHCARE: Office visits to optometrist, doctor and dentist. Non-prescription drugs and prescription drugs. MISCELLANEOUS GOODS & SERVICES: Hamburger sandwiches, pizza, fried chicken, haircut, beauty salon, toothpaste, shampoo, dry cleaning, men's shirt, boy's jeans, women's slacks, major appliance repair, newspaper subscription, movie, tennis balls, veterinary services, beer, wine and drop-in yoga class.

Other	12,055	8,680	3,369
Total	1,276,802	1,094,949	179,204

85.8%

of registered voters were active in 2019 general elections

Note: Outer ring represents active voters for each party.

Note: Pursuant to state and federal law there may be a change in the number of registered voters after a statewide general election due to required maintenance of the statewide voter registration list. This report has been generated from Nevada's statewide voter registration database. The transmission of registration information between the counties and the statewide database does not take place in real time. As a result, the numbers reflected in this report may not represent registration numbers reflected in the county database at the precise moment a report is generated. "Total Voter Registration" reflects all registered voters in the state that will be eligible to vote by the next federal primary or general election. This includes the following voter statuses: active, inactive and P-17. Not all county databases may have voters in all voter status categories. "Active Voter" status includes any registered voter that is legally entitled to vote. This category includes new registrants who have provided all critical eligibility criteria but are missing additional non-critical information from their applications, as well as existing registered voters whose records are being updated or changed. "Inactive Voter" status includes any voter for whom a county has received: 1) a returned residency confirmation mailing without a forwarding address within the same county, or 2) information obtained through the United States Postal Service National Change of Address (NCOA) database indicating that a voter has moved outside the county. An inactive voter is eligible to vote so long as they have met all other legal requirements to vote. "P-17 Voter" status includes any registered voter who was under 18 years of age at the time his or her voter registration was submitted, but will be 18 years of age or older by the next federal primary or general election and who has met all other legal requirements to vote.

Clark County

With jurisdiction over the world-famous Las Vegas Strip and covering an area the size of New Jersey, Clark County is the nation's 13th-largest county. The County is a mix of urban and rural locales that offers the convenience of city living with access to some of the nation's best outdoor recreational areas just a short drive away. Clark County is governed by a seven-member County Commission, elected from geographic districts on a partisan basis for staggered four-year terms. Commissioners biennially elect a chairperson who serves as the Commission's presiding officer. The Commission, in turn, hires a county manager who functions as the chief executive officer responsible for all administrative operations. Clark County employs more than 10,000 people over 38 departments. The County has an annual budget of \$8.1 billion, which surpasses that of the state government. The County is known for being fiscally responsible and responsive to taxpayers' desires for an efficient government. The County's strong fiscal policies have led to a consistent investment-quality credit rating. Clark County, formed in 1909, is named for Sen. William Andrews Clark, who established the railroad that linked Los Angeles with Salt Lake City.

- › Clark County is not just The Entertainment Capital of the World but now The Sports and Entertainment Capital of the World. The County is home to the NHL's Vegas Golden Knights, the WNBA's Las Vegas Aces, the NFL's Las Vegas Raiders, UFC, a minor league baseball team, the Las Vegas Aviators, and a minor league soccer team, the Las Vegas Lights.
- › McCarran International Airport, located in Clark County, is the 9th-busiest airport in the country, serving more than 51 million passengers in 2019 and ranking 3rd for overall customer satisfaction. As a top-tier international airport, it offers direct access to hundreds of cities across the world, setting the stage for our businesses to succeed in the global marketplace.
- › Clark County's low tax structure is friendly to business and individuals alike with no corporate income tax, no personal income tax, no franchise tax on income, no inventory tax, no inheritance tax or gift tax, no unitary tax and no estate tax.
- › Clark County is ranked amongst the highest in the nation for housing appreciation, helping residents grow and maintain net worth.

PHOTO – Located on the southeast corner of Grand Central Parkway and Bonneville Avenue, the Clark County Government Center stretches across 38.8 acres of land. The 385,000-square-foot facility was designed to blend into the local environment, particularly Red Rock Canyon, Valley of Fire, and other natural sandstone formations representative of Clark County.

Established: 1909

Leadership:

- › Marilyn Kirkpatrick, Commission Chair
- › Lawrence Weekly, Commission Vice-Chair
- › Larry Brown, Commissioner
- › James B. Gibson, Commissioner
- › Justin Jones, Commissioner
- › Michael Naft, Commissioner
- › Tick Segerblom, Commissioner
- › Yolanda King, County Manager

Employees: 10,000+

Mission: To provide responsible, progressive, and results-oriented government that is responsive, accessible, and accountable to our citizens, ensuring their right to cost-effective and open government.

Services Provided: Clark County provides extensive regional services to 2.3 million citizens and 45.6 million visitors a year (2019) including operating the nation's 9th-busiest airport, environmental and sustainability initiatives, social services, and Nevada's largest public hospital and only Level I trauma center, University Medical Center. The County also provides municipal services to more than 1 million residents in the unincorporated areas including fire protection, roads and other public works, parks and recreation, arts and culture, business licensing, planning, and development.

Business Development: The Clark County Department of Business Licenses provides licensing and permitting to all new and existing businesses operating within unincorporated Clark County. To help ensure the health, safety, and welfare of the county's citizens, the Department coordinates public safety inspections of business premises and coordinates/ conducts applicant background investigations for businesses in certain industries.

Economic Development: Clark County is taking a strategic approach to economic development with the establishment of a new Office of Community and Economic Development. The office will focus on programs that invest in people and community to drive economic success. That means diversifying our economy through improved educational outcomes, development of a skilled workforce, expansion of entrepreneurship and enhanced neighborhood services. In addition, the office promotes positive results for prospective and existing business clients and commercial developers by curating the customer experience with county departments that participate in the development process such as Comprehensive Planning, Public Works, Building and Fire Prevention, and Business License.

Boulder City

Boulder City, a municipality of more than 16,000 people located just thirty minutes from the famous Las Vegas Strip, is a wholesome, family-oriented community that takes pride in its low crime rate and high quality of life. Just minutes from the Hoover Dam and the Lake Mead National Recreation Area, Boulder City has much to offer families and retirees.

Originally a town built for Hoover Dam workers, Boulder City offers a unique experience for visitors and residents. The City has a managed-growth ordinance that has preserved its small-town feel. Known for its historical attractions and recreational opportunities, Boulder City draws nearly 100,000 visitors each year to its art festivals and outdoor events.

History and tourism are not all that define Boulder City. The community is located along Interstate 11, serving as a gateway to Southern Nevada and home to one of the largest concentrations of solar energy facilities in the country.

City of Henderson

The City of Henderson is nestled among three of the most renowned man-made attractions – the neon of Vegas, the engineering marvel of the Hoover Dam and the tranquil beauty of Lake Mead. As a vibrant and inviting residential and business community, Henderson offers an abundance of cultural events, special attractions, miles of trails and open spaces, and outstanding recreational facilities, as well as renowned resorts, restaurants and shopping.

Henderson, located in the expansive Las Vegas Valley, has been home to pioneers and visionaries long before its incorporation in 1953, and has grown to be the second-largest city in Nevada, with an estimated population of 322,000. The City operates under a council-manager form of government. Elected officials consist of a mayor, four city council members and three municipal judges. The mayor and council are elected at large on a nonpartisan basis. All elected officials serve four-year terms. City Council meetings are held on the first and third Tuesday of each month.

Henderson is consistently recognized as a premier destination to live, work and play. In fact, MONEY Magazine ranked Henderson as one of America’s Top 50 Best Places to Live and WalletHub.com rated Henderson as one of the best cities in the U.S. to start a business.

With Southern Nevada’s favorable tax climate, Henderson’s business-friendly government and the City’s revolutionary expansion of entrepreneurship, business leaders across the nation have turned to the City of Henderson’s Economic Development Department for assistance in expanding and relocating their businesses to Henderson.

Established: 1953

Leadership:

- › Debra March, Mayor
- › Michelle Romero, Councilwoman Ward I
- › Dan K. Shaw, Councilman Ward II
- › John F. Marz, Councilman Ward III
- › Dan H. Stewart, Councilman Ward IV

Mission: Provide services and resources that enhance the quality of life to those who live, learn, work and play in our city.

Services Provided: Henderson’s Economic Development department works closely with businesses considering relocation or expansion projects within the Las Vegas Valley. Economic Development staff can serve as a key member of your team ensuring creative and unique solutions to each business’s needs.

Henderson has taken a personal hands-on approach to providing assistance such as introductions to employment and training providers, community leaders and business contacts, identifying potential incentive programs, site and community tours, providing economic or demographic information, confidential real estate searches, and facilitating meetings with regulatory agencies.

Community Survey

Quality of Life

How would you rate the quality of life in the Vegas region?

Excellent	Good	Fair	Poor	Terrible
14.6%	49.2%	30.2%	4.0%	2.0%

Please rank the following mobility improvements according to what would be most beneficial in improving your daily life:

- More and better sidewalks and crosswalks (3.59)
- Buses in dedicated lanes connecting suburbs and downtown (3.93)
- Improving pedestrian connections to downtown locations (4.10)
- Light rail connecting locations around the Valley (4.17)
- Extending the Las Vegas Monorail (4.62)
- Streetcars connecting downtown locations (4.95)
- More housing options next to frequent transit routes (4.97)
- Additional high-quality bicycle facilities (5.68)

Note: 1 is most beneficial, 8 is least beneficial. (Avg. Rank)

Community Survey

Regional Transportation Projects

Local groups are also considering various regional transportation projects. Of the following possible regional transportation projects, please rank their importance to you:

1

Connecting Las Vegas and Los Angeles with high-speed passenger rail (2.57)

2

Expanding I-15 in California to accommodate more passenger traffic (2.85)

3

Completing work on the I-11 to connect Las Vegas to Phoenix (3.61)

4

Extending I-11 to connect Las Vegas and Phoenix to Reno (3.75)

5

Expanding access to refueling and recharging stations for hydrogen and electric-powered vehicles (4.04)

6

Preparing roads in tourist and major employment areas for self-driving cars (4.17)

Note: 1 is most important, 6 is least important. (Avg. Rank)

Getting Down to Business

The city of Las Vegas offers many incentives and programs to help your business succeed.

City of Las Vegas

Las Vegas was founded as a city on May 15, 1905. Las Vegas was incorporated on June 1, 1911. The City is divided into six wards with an elected representative for each ward. The mayor is elected at large to serve the entire community.

The City of Las Vegas is a council-manager form of government, combining the strong political leadership of elected officials, with the executive managerial experience of an appointed city manager. All policies and major budget decisions rest with the City Council and the City Manager is charged with running the day-to-day operations of the organization.

The City has cultivated and championed a variety of important projects for the benefit of the community. Some highlights include downtown's newest property Circa, scheduled to open this year. Circa is downtown's first newly built hotel-casino since the 1980s and includes a 459-foot-tall tower, 777 new rooms, a massive sports book, multiple swimming pools, bars and restaurants.

There has been a \$32 million upgrade to the Fremont Street Experience canopy, and the new Downtown Grand tower is just north of the canopy making the area even more spectacular. The City is looking forward to the grand opening of the new 350,000-square-foot International Market Expo Center. Another downtown highlight is the new residential development which includes two complexes on Symphony Park and ShareDOWNTOWN in the 18B Las Vegas Arts District.

The City will see the opening of the multi-sensory music, art and entertainment complex known as Area 15. Featuring a bamboo Volcano lounge, virtual reality offerings, and indoor and outdoor events spaces, Area 15 is like nothing else in Las

Vegas. There is a 7,000-square-foot room that has 360-degree projection capabilities allowing you to enjoy a drink in outer space or under the ocean. It will also be home to a larger than life festival-style sculpture garden that would be at home at Burning Man or Life is Beautiful. In addition, it will house its anchor tenant the eclectic and popular Meow Wolf art exhibition.

The City is also heavily involved in the Las Vegas Medical District and the forthcoming UNLV School of Medicine. Established by the Las Vegas City Council in 1997, the Las Vegas Medical District (LVMD) is now evolving as one of the most important economic development projects in Southern Nevada, enhancing and expanding access to quality medical care, attracting new high-paying employers to the region and advancing a higher quality of life. The medical district is a collaborative effort between the City of Las Vegas and the Downtown Las Vegas medical and health care community. The LVMD creates an environment that supports future and continued development of businesses and real property within the district

Another highlight is all of the new infrastructure projects that are wrapping up and getting started in 2020. Many of the projects involve widening sidewalks, adding mature trees and bike lanes to downtown areas.

Very soon, the reimagined Third Street will be completed. The City will install and unveil a new Gateway Arch near the popular Showgirl sign. The arch is going to evoke the glitter, glamour and neon that made Las Vegas famous.

Another major street project that is well underway is Project Enchilada. This project is refreshing historic Fremont Street and will be adding trees and creating wider sidewalks where restaurants can have outdoor seating.

The City is also bringing new technologies and industry to Las Vegas. The heart of the Innovation District is the new International Innovation Center @Vegas. The City of Las Vegas continues to be a hub for innovation and technology with the opening of this 11,000-square-foot center for established and emerging tech companies developing smart technologies.

Finally, improving the quality of life in Las Vegas is why the Mayor's Fund for Las Vegas Life was created. Focused on livability, innovation, the future and education, the fund is a vehicle for partners to invest in solutions that address the community's most pressing challenges. The Mayor's Fund helps projects such as:

- › Strong Start Go, a mobile pre-kindergarten program that brings learning directly to communities most in need
- › Las Vegas Connected, assisting families living in public housing with internet access
- › The City's Courtyard Homeless Resource Center

Photo – Located at 495 S. Main Street, City Hall is an energy-efficient structure that is built to LEED® standards, reducing energy costs by more than \$500,000 annually.

Laughlin

Nevada's southern-most community, Laughlin, is nestled between the Colorado River and the mountains at the point where Nevada, California and Arizona meet in the desert.

Home to some 11,000 residents, the modern community includes retirees from every career imaginable who are better-off financially than average and higher educated than average. Most pay cash for their homes in the residential area called Upper Laughlin at the base of the mountains overlooking the Colorado River.

Laughlin also enjoys two visitor seasons a year, attracting some two million visitors annually. In the mild winters, "snowbirds" flock to the community in their RVs. In the summer, Laughlin draws water-worshipping/sun-loving visitors with their watercrafts whom share the aquatic, eastern Nevada border with the community's water taxis and riverboats.

Laughlin also is home to Nevada's Big Bend State Recreational Park, complete with full service RV hookups and services, and the Clark County-operated Colorado River Heritage Greenway Park and Trails for walking, hiking, bicycling, and picnic and fishing facilities. It extends several miles from Davis Dam, which forms Lake Mohave, downstream to a scenic pedestrian bridge over Nevada Highway 163 that extends into Downtown Laughlin. Ten casinos, many with high-rise towers providing tremendous views of the water, slopes, and mountains framing Laughlin to the east and west, provide gambling, dining, entertainment, and shopping in a 2-mile strip, and the Laughlin River Walk between the resorts and the water's edge.

As part of the Las Vegas Metropolitan Statistical Area, Laughlin is also a distinct part of the tri-state river communities' Mohave Valley, extending to Needles, Calif., and Golden Shores on the south at Interstate 40 upriver to Bullhead City and the Lake Mohave section of the Lake Mead National Recreation Area on the north.

Laughlin is ripe for Vegas Valley businesses to open branch stores and offices in the community. As the area's primary advocate for sensible growth, the Laughlin Economic Development Corporation, provides networking, promotion, professional services and site location assistance.

Established: 1968

Leadership: Dr. Brian K. Paulson, Town Manager

Mission: To create and implement a collaborative venture among civic and business leaders in the town of Laughlin, to promote the health, welfare and quality of life for the residents of Laughlin through economic development.

Services Provided: As an Unincorporated Township, Laughlin's municipal-type services are provided by Clark County, its subsidiary districts, and several metropolitan-type regional districts, including police, fire, water, sewer, streets, parks and recreation, library, transit (24-hour fixed-route service), flood control, tourism, and schools. The Clark County Commission is assisted by an elected 5-member Town Advisory Board.

The county and special districts have invested significantly into infrastructure for diversification to help the community grow. The community has plenty of water, drawn directly from the Colorado River, and sewer services for domestic, commercial, and industrial use.

Business Development: The Laughlin Economic Development Corporation provides business development and site selection resources for businesses and industries wishing to locate in the township of some 80 square miles, of which only about 6 square miles are developed. The LEDC works closely with the county's Town Manager's Office, LVGEA and the Nevada Governor's Office of Economic Development.

Some 14 square miles of vacant land extends to the California and Arizona borders immediately south of the Big Bend State Park, which the 4-lane Needles Highway (15 miles to Interstate 40) bisects. A county-commissioned study showed industrial, commercial, and residential areas feasible for development. Also, the electric utilities that own a 4 square mile block in the middle of town, have offered more than 2,000 acres for sale – with all utilities and roads surrounding the site of a former electric generating station that has been removed.

Mesquite

Mesquite, a municipality with over 24,000 people, is located approximately 80 miles northeast of Las Vegas along Interstate 15 near the Nevada/Arizona border. Nestled in the heart of the Virgin River Valley, Mesquite is known for its stunning natural beauty, low-cost living and high quality of life.

For decades, Mesquite has been known as a tourism and recreation destination, with seven championship golf courses and more outdoor recreation within a 100-mile radius of its boundaries than any other city in the Western U.S.

In recent years, Mesquite has also become known as a top place to do business. The Boyd Company, a noted site selection firm, rated Mesquite as one of the top 25 U.S. locations for new distribution and warehouse operations.

Mesquite sits exactly 365 miles between Los Angeles, CA and Salt Lake City, UT and has a brand new 750-acre industrial park with available land, and abundant water supplies. Mesquite has improved the transportation infrastructure access by building an all-new freeway exit to serve the new industrial park. As Southern Nevada's economy expands, Mesquite is well-positioned for diverse business growth.

City of North Las Vegas

The City was incorporated in 1946, encompassing 104 square miles within Clark County in Southern Nevada. The City operates under a Council-Manager form of government, with a Mayor and four City Council members. The Mayor is elected at large; Council members are elected by wards. The City has one municipal judge who is elected at large. The City of North Las Vegas stretches across the northern rim of the Las Vegas Valley and is home to more than 258,000 residents.

The City of North Las Vegas is proud of its longstanding tradition of maintaining a business-friendly environment. North Las Vegas's "fast and faster" approach to doing business has made the City one of the best in the country for development opportunities. The City is a hub for new job creation and economic diversification that attracts global brands, innovative industries, and manufacturing, e-commerce, and distribution centers.

North Las Vegas has strong regional partnerships from workforce development and creating career pathways to transportation and site selection logistics. Some of our great regional partners include: Workforce Connections; The Chambers; Bureau of Land Management; NV Energy; Southwest Gas; Cox Communications; CenturyLink; LVGEA; Governor's Office of Economic Development; Nellis Air Force Base; Regional Transportation Commission; Republic Services; University of Nevada, Las Vegas; College of Southern Nevada; Clark County and the Clark County School District.

North Las Vegas also enjoys close proximity to major transportation corridors, railways and two airports (North Las Vegas Airport and McCarran International). This gives North Las Vegas businesses easy access to large and growing markets across the Western United States, including California, Arizona and Utah.

The City of North Las Vegas' Economic and Business Development Division is focused on creating a thriving community that promotes a high standard of living, sustainability and health of the City by creating long-term economic impact and diversification. The City enhances regional competitiveness through job creation and developing human capital, critical infrastructure and business growth through expansion; also, it attracts industries related to manufacturing and distribution. Economic Development priority areas include:

- › Apex Industrial Park and related infrastructure projects are game-changers for the region with this mega industrial park taking the lead as the premier park for advanced manufacturing, innovative technologies, clean energy, logistics and distribution.
- › Downtown Redevelopment Area has a catalyst project bringing life to the scene with a new downtown library and experiential campus that will boast creative space, flex-space for meetings, an indoor-outdoor learning environment, a new park and an inspiring street-scape.
- › Opportunity Zones, the Craig Road Corridor and the Cheyenne Technology Corridor along with prioritizing strategic infill development throughout the city.
- › The Job Creation Zone, 645 acres in total with a bifurcated section equal to about 150 acres, next to the VA Hospital that is planned for a Health + Care City Campus that will bring innovative research, medical services, office, retail, walking trails and hotel services to the area.

Established: 1946

Leadership:

- › John J. Lee, Mayor
- › Isaac E. Barron, Councilman Ward 1
- › Pamela A. Goynes-Brown, Councilwoman Ward 2
- › Scott Black, Councilman Ward 3
- › Richard J. Cherchio, Councilman Ward 4
- › Ryann Juden, City Manager

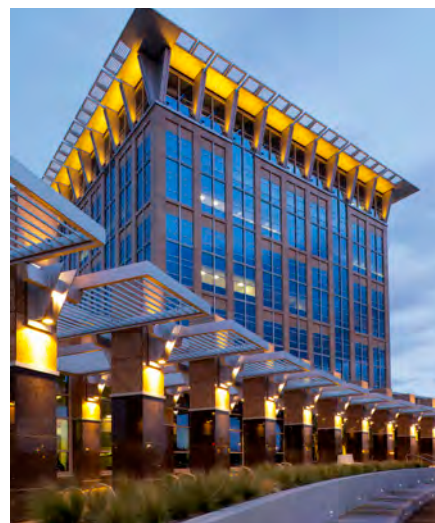

Employees: 1,377

Mission: To be a community dedicated to making life more fulfilling by offering quality services, people-focused solutions and innovative resources.

Services Provided: The City is a full-service municipality, providing recreational amenities, police and fire protection, economic development and business assistance, development services, waste and wastewater services.

Business Development: The City encourages growth throughout North Las Vegas by strengthening its competitive position and by facilitating investments that build capacity, create jobs, generate economic opportunity and improve quality of life.

Transportation

Established: 1981 as the region's Metropolitan Planning Organization; became the regional public transit agency in 1992

Leadership: MJ Maynard, Chief Executive Officer

Employees: 375

Annual Budget: \$679.4 million

Mission: To provide a safe, accessible and efficient regional transportation network that enhances the quality of life for Southern Nevada's residents and visitors.

Services Provided: Public transit, traffic management, roadway planning and funding, and administration of the valley's only federally recognized regional plan – Southern Nevada Strong.

Economic Impact: Construction of all 225 roadway projects funded by the initial Fuel Revenue Indexing (FRI) program has been completed with an investment of just over 570 million. Looking ahead, the extension of FRI could generate up to \$3 billion through 2026 to fund critically needed roadway projects in our community, creating up to 25,000 jobs for our economy. For the region, it means jobs, progress and growth. In addition, the RTC works with the local jurisdictions and private companies to demonstrate new, advanced transportation technologies that help diversify the local economy and improve mobility and safety on our roads.

Business Development: From its inception in 2014, Fuel Revenue Indexing has significantly spurred economic development in Southern Nevada, especially within the small-business community. FRI has generated 225 contracts for critical roadway improvement projects that employed nearly 80 small businesses and created 8,101 jobs overall. And since Southern Nevadans voted in 2016 to extend FRI until 2026, our community will benefit from continued economic development from future transportation infrastructure projects.

The RTC's commitment to furthering advanced transportation technology and smart community initiatives has resulted in pilot projects, contracts and product launches with nearly a dozen private sector partners, including Audi, Waycare, Keolis, INRIX, Aptiv, Lyft, Uber, Transit, Geotab, Nexar, and iCone.

Website: rtcshv.com

Regional Transportation Commission of Southern Nevada (RTC)

The Regional Transportation Commission of Southern Nevada (RTC) is one of the only agencies nationwide that manages public transit, traffic management, and roadway planning and funding, in addition to administering the Southern Nevada Strong (SNS) regional plan, all under one roof. The RTC creates an efficient and effective transportation system that promotes mobility as a key driver to an economically vibrant community.

As the transportation planning organization for Southern Nevada, the RTC works with local municipalities to plan, fund and launch infrastructure projects that improve Southern Nevada's roads and transportation options. To meet the region's growing transportation needs, the RTC and local jurisdictions have completed construction of all 225 projects under the first Fuel Revenue Indexing (FRI) initiative. The agency continues to work with the jurisdictions to prioritize and fund infrastructure and roadway projects under the extension of FRI through 2026.

As the region's transit agency, the RTC operates 39 bus routes throughout the valley with a fleet of more than 400 vehicles. The agency is committed to converting nearly all of its fleet to compressed natural gas (CNG) vehicles over the next several years to help improve the valley's air quality and to acquire two electric buses this year.

The RTC is finalizing On Board, the valley's future mobility plan for the next 20 years. On Board is a comprehensive, long-term transportation plan that includes eight big moves or strategies to help address the top transportation priorities that our community has identified through robust engagement and feedback. The draft plan is focused on benefiting all modes of transportation - from biking and walking to driving and transit.

The RTC's traffic management center uses intelligent technology to monitor traffic flow, identify detours, adjust traffic signals and keep vehicles moving as smoothly as possible. Working in coordination with local jurisdictions, NHP and NDOT, FAST's the RTC's regional coordination has been advantageous to Southern Nevada and private industry alike. It has enticed globally recognized companies to launch innovative technologies and pilot demonstrations on the streets of Southern Nevada.

As the region's metropolitan planning organization, the RTC engages in transportation-related planning studies and coordinates the long-term collaborative planning through Southern Nevada Strong. The SNS Implementation Office coordinates with regional partners to execute the plan's goals of providing access to reliable transportation, increasing housing options for all income levels, ensuring quality education, and strengthening social services and healthcare networks.

2019 RTC Accomplishments

- › Awarded and completed construction of all 225 roadway projects funded by the first phase of Fuel Revenue Indexing that has enhanced safety, reduced congestion and increased capacity for our community.
- › Partnered with Uber and Transit, two of the world's most popular transportation-related apps, to sell RTC bus passes, making it easier now than ever for residents and visitors to complete multi-modal trips.
- › Continued developing On Board, our community's future mobility plan, with local agency partners through planning exercises and gathered more than 27,000 responses and engaged with more than 80,000 people.
- › Provided enhanced traffic management support, using traffic signals and Intelligent Transportation System (ITS) devices, during 44 Vegas Golden Knights home games; 70 Las Vegas Aviators games; 18 Las Vegas Lights games; and numerous conventions, major events and parades.
- › Employed the Waycare incident management platform to manage 3,996 property damage incidents, 1,683 injury incidents, and eight fatal freeway crashes. Expanded the Waycare platform to six additional sites on U.S. 95 and I-15 through the Road to Zero grant, enabling law enforcement to minimize speeding and crashes in high-risk areas.
- › Launched the Work Zone of the Future pilot project with Nexar, iCone and HAAS Alert in April to detect construction zones and bring work zone data into the traffic management center and other RTC applications.
- › Partnered with Lyft to provide 1,320 rides to employees of a local warehouse from 13 different transit stops located on six routes during the first year of the Workforce Mobility Program.
- › Hosted a 30-day public comment period about transit options for Maryland Parkway generating 1,002 total comments. The RTC board chose to advance bus rapid transit in light of the fiscal implications. Additionally, the RTC worked cooperatively with Clark County on a transit-oriented development (TOD) plan for Maryland Parkway from Sahara Avenue to Russell Road, to provide a framework to identify and plan for transit station areas with the greatest potential for economic development.
- › Finalized the Reimagine Boulder Highway Plan with more than 3,500 community survey responses and 500 direct comments. 10% of all pedestrian fatalities in Nevada occur along Boulder Highway. Preliminary design began on the 7.5-mile stretch of the corridor in the City of Henderson.
- › Successfully passed a bill during the 2019 legislative session to extend the RTC's ballot question authority until 2024, providing critical flexibility in order for the RTC to complete its long-term transit plan and agency strategic plan prior to moving forward with a potential ballot initiative.

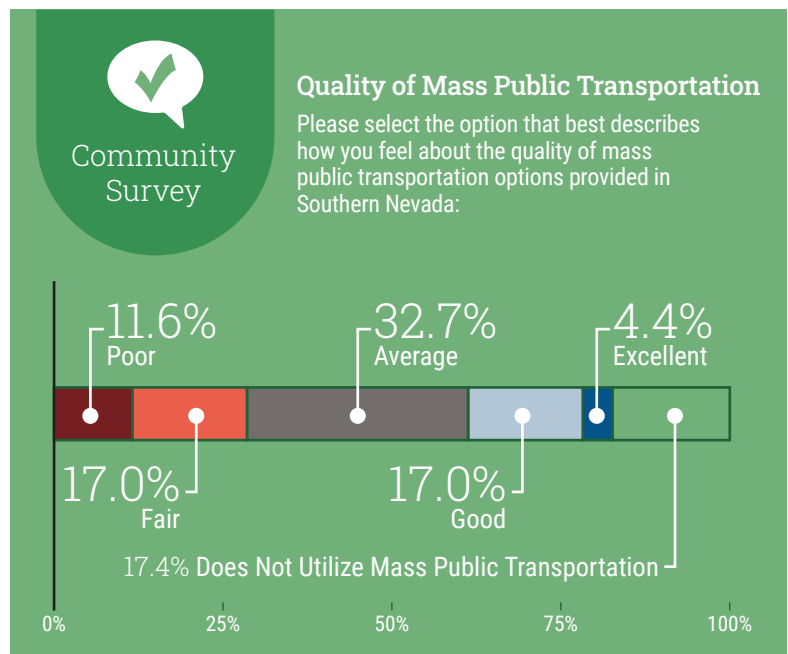

The Southern Nevada Transit Coalition

The Southern Nevada Transit Coalition was incorporated in June of 2002 as part of the Nevada Department of Transportation's Public Rural Ride (Pride) program. Silver Rider Transit is the organizational branding of the Southern Nevada Transit Coalition.

Currently, Silver Rider offers transportation opportunities in 11 communities in Southern Nevada: Mesquite, Laughlin, Indian Springs, Sandy Valley, Goodsprings, Searchlight, Cal-Nev-Ari, Palm Gardens and Boulder City.

Services Provided: Public Rail Transportation
- The Las Vegas Monorail Company runs the only privately owned public transportation system in the United States.

Website: lvmonorail.com

The Las Vegas Monorail

The Las Vegas Monorail has been transporting residents and visitors along the Las Vegas Strip on its zero-emissions trains for more than 15 years. Leisure and business travelers comprise nearly all its millions of annual riders, though a number of Las Vegas residents have discovered the benefits of the Monorail getting to and from concerts, fights, Vegas Golden Knights games at the T-Mobile Arena and other events along Las Vegas Boulevard. As younger travelers and international visitors alike tend to utilize rail and mass transit modes more frequently, it's no surprise that 30 percent of Monorail riders are Millennials and more than 30 percent are international visitors to Las Vegas.

The Monorail is the only transit system to integrate fares directly into attendees' badges, requiring only a quick tap of their tradeshow badge on Monorail faregates to ride the system. Several major shows and their attendees have already experienced the benefits of adding Monorail access into show badges, including the National Association of Broadcasters, CONEXPO-Con/Agg, CES and PackExpo, with more to come.

As a long-established leader in providing driverless transit technology, the Monorail continues to be an early adopter of emerging technology solutions that enhance the rider experience. It introduced e-ticketing more than 12 years ago, and enhanced access with mobile tickets, allowing guests to purchase Monorail fare online and have it delivered to their mobile device. The system was also the first-ever transit system to partner with Google to integrate Monorail tickets directly into Google Pay.

As Las Vegas' cleanest mass transit resource, in 2019 the Monorail aided in the removal of an estimated 2.1 million vehicle miles from Southern Nevada's major roadways, reducing emissions by 27 tons of carbon monoxide (CO), volatile organic compounds (VOC) and nitrogen oxides (NOx).

The Las Vegas Monorail has seven stations: MGM Grand, Bally's/Paris Las Vegas, Flamingo/Caesars Palace, Harrah's/The LINQ, Las Vegas Convention Center, Westgate Resort & Casino and SAHARA Las Vegas. Trains arrive every few minutes at each station, enabling passengers to travel the length of the Strip in less than 15 minutes in a safe, clean and climate-controlled environment. Hours of operation are Monday 7 a.m. - midnight, Tuesday-Thursday 7 a.m.- 2 a.m., and Friday-Sunday 7 a.m. - 3 a.m. A single ride ticket costs \$5 (\$1 for Nevada residents) and unlimited-ride passes are available as well.

Did You Know?

- › No taxpayer funds are utilized in the operation of the Monorail.
- › The Monorail is the most advanced driverless (autonomous) urban transportation system in the United States.
- › The system offers mobile ticketing through Google Pay for Android, as well as Scan-and-Go mobile ticketing for all smartphones; riders can purchase tickets online and simply scan their smartphones at the fare gates and ride.
- › It connects to more than 25,000 hotel rooms and almost 5 million square feet of convention and meeting space.
- › The Las Vegas Monorail carries an average of 67,000 passengers during citywide tradeshows, which equates to approximately 22,334 taxicabs with three passengers each or 1,218 passenger buses with 55 riders each.
- › The Monorail carries approximately 5 million passengers per year.
- › Since opening, the Monorail has carried nearly 90 million riders and removed more than 31 million vehicle miles from Southern Nevada's roadways.
- › The Monorail plans to extend its route with new stations serving the Mandalay Bay resort campus as well as the Sands Expo and Convention Center and MSG Sphere, which would directly link it to more than 10 million square feet of convention space and approximately 42,000 hotel rooms – making it the world's single most connected resort and convention rail service.

Sports

Sports

Las Vegas Aces

In two short years since moving to the Sports & Entertainment Capital of the World, the Aces have gone from the worst team in the league three-years running, to the most talked about franchise in the W after a 2019 run to the WNBA Semifinals.

During that time, Head Coach and President of Basketball Operations Bill Laimbeer added overall number one picks A'ja Wilson (2018 Rookie of the Year) and Jackie Young (2019 All-Rookie Team) to the roster via the draft, and brought in veterans Liz Cambage (career 16.7 ppg, 7.6 rpg) and Angel McCoughtry (career 19.1 ppg) through free agency.

As a result, Las Vegas odds-makers have installed the Aces as the early favorites to win the WNBA Championship in 2020.

In addition to the excitement on the court, the Aces boast a one-of-a-kind, in-game experience, having welcomed such acts as Boyz II Men, Blue Man Group, Jabbawoockeez, and a variety of Cirque de Soleil performers, to wow the crowd with their renditions of the national anthem and colorful halftime extravaganzas.

The Aces are also deeply committed to enriching and impacting the Las Vegas community with a special emphasis on diversity and inclusion, health and wellness, and education. Throughout the year, the Aces work with schools and community-based organizations, partner with service-based volunteer organizations, and utilize the WNBA platform to encourage the love of basketball throughout the city.

Las Vegas Aviators

The Las Vegas organization has the proud distinction of being the longest enduring franchise in the history of professional sports in the state of Nevada. The 2020 campaign will mark the 38th Pacific Coast League season in the Silver State. The franchise played at Cashman Field for 36 seasons (1983-2018) before opening Las Vegas Ballpark on April 9, 2019 before a sellout crowd of 11,036.

Cashman Field opened in 1983 with the Stars, Triple-A affiliate of the San Diego Padres. The Stars were the home team for 18 years (1983-2000), until the franchise switched affiliations to the Los Angeles Dodgers in 2001. The franchise also unveiled a new alien-themed logo based on the government base known as "Area 51." The team nickname was changed from Stars to 51s. The 51s were affiliated with the Dodgers for eight seasons (2001-08). Las Vegas then signed a Player Development Contract (PDC) with the Toronto Blue Jays and spent four seasons as the top affiliate of the Blue Jays (2009-12). Las Vegas on September 12, 2012, then announced a two-year PDC with the New York Mets. The 51s and Mets had a total of six years with the PDC (2013-18). The 51s, on September 17, 2018, announced a "new" PDC with the Oakland Athletics for two seasons (through 2020).

The Las Vegas franchise enjoyed a total rebrand in 2019. The new Las Vegas Ballpark (8,834 seats), located in Downtown Summerlin, opened in April, to go along with a new team nickname: Aviators, which was officially announced on December 8, 2018. The Aviators led all 2019 minor league baseball in attendance with a total of 650,934 for an average of 9,299 in 70 dates which included 47 sellouts and 23 crowds of 10,000+. Las Vegas Ballpark was named winner of the 2019 MiLB Triple-A Best of the Ballparks Fan Vote; winner of BaseballParks.com 20th Annual Ballpark of the Year Award; honored as Ballpark of the Year and Aviators Team of the Year by Ballpark Digest.

Fran Riordan, the 2019 PCL Manager of the Year, returns for his second season for Triple-A Las Vegas in 2020. In 2019, Las Vegas compiled the second-best record in the 16-team PCL with a record of 83-57 (.593) and were the Pacific Southern Division Champions and returned to the PCL Playoffs for the first time since 2014.

Sports

Las Vegas Lights FC

Established in 2018, Lights FC's owner, Brett Lashbrook, brought to Las Vegas the highest level of soccer the city has ever seen. In 2019, Lights FC surpassed their regular-season point total and attendance (7,711 average per game) from its inaugural year. The team's ever present goal is to deliver a USL Championship playoffs berth to the city of Las Vegas.

The Las Vegas Lights FC are proud to provide a fun and unique experience for fans in attendance on game day. Notable game promotions include "Vegas Golden Knights Night", \$10,000 Helicopter Cash Drop, Guaranteed Win Night, and the self-proclaimed, World's Largest Water Balloon Fight at Halftime. Come join the Las Vegas Lights Lights at their next home match to meet the world famous Lights Llamas, Dottie and Dollie! All matches will be televised on the ESPN family of networks (ESPN+, ESPNNews, & ESPN3.com).

Sports

Las Vegas Raiders

The Raiders' rich history began in 1960 when the City of Oakland was awarded a franchise in the American Football League. In 1963, Al Davis was named head coach and the league's youngest general manager, establishing a culture that has remained with the Raiders to this day. Whether it was changing the team colors to silver and black, innovating on the field, or articulating the team's values – "Commitment to Excellence" and "Just Win Baby" – Davis led the team to revered heights including 15 total Division Championships, five total Conference Championships, one American Football League Championship and three Super Bowl Championships.

One of the most recognizable brands in professional sports, the Raiders' permanent relocation to Southern Nevada became official when in January of this year they officially became the Las Vegas Raiders. In conjunction with their arrival, Allegiant Stadium will open its doors adjacent to the Las Vegas Strip, and become one of the most technologically advanced stadiums in the world. The 65,000-capacity stadium will be ideally located for both visitors and locals, fully enclosed and climate-controlled, and will not only be the home of the Raiders; it will host world-class entertainment including globally recognized sporting events and concerts.

Ultimate Fighting Championship (UFC)

UFC, the world's premier mixed martial arts organization, boasts more than 318 million fans worldwide and has produced over 500 events in 25 countries since its inception in 1993.

UFC was acquired in 2016 by global entertainment, sports, and content company Endeavor, in conjunction with strategic investors Silver Lake Partners and KKR, in what is among the largest transactions in sports history.

Since 2001, UFC has been proudly headquartered in Las Vegas, with a network of employees around the world. UFC produces more than 40 live events annually that consistently sell out some of the world's most prestigious arenas, and its programming is broadcast in over 170 countries and territories to more than one billion TV households worldwide in 40 different languages.

In January 2020, one of the biggest events in UFC history, UFC 246: MCGREGOR VS. COWBOY, was held at T-Mobile Arena and generated \$66.2 million in economic impact for the Las Vegas metropolitan area, marking one of the largest economic impacts for a single UFC event measured globally to date. In addition to the total economic output, the landmark event also contributed \$18 million in salaries and wages and supported an estimated 423 jobs in the Southern Nevada market. Visitors attending events related to UFC 246: MCGREGOR VS. COWBOY, were responsible for an estimated \$2.8 million in public revenues in Nevada.

In 2017, UFC opened the doors of a new 184,000-square-foot corporate campus that houses nearly 300 employees and includes the UFC Performance Institute, the world's first mixed martial arts multi-disciplinary research, innovation, and training center. To date, more than 400 athletes from UFC's roster, as well as dozens of NFL, NBA, NHL, MLB, and Olympic sports athletes, have utilized the facility. The UFC Performance Institute offers customized programs that support world-class athletes with all their development, preparation and rehabilitation requirements.

Adjacent to the UFC Performance Institute is UFC APEX, a 130,000-square-foot state-of-the-art production facility and venue space that can be configured to accommodate a variety of live events, including UFC bouts and other sports competitions, concerts, stage shows, esports tournaments and more. The venue can also be converted into a sound stage for use as rehearsal space for entertainment acts booked throughout Las Vegas. UFC APEX is open to outside production companies for commercials, shows, entertainment rehearsals, photo shoots and other possibilities.

Vegas Golden Knights

The Vegas Golden Knights are a National Hockey League franchise owned and operated by Black Knight Sports and Entertainment LLC. Established by founding partners William Foley, his family and the Maloof family, the Vegas Golden Knights came into existence on June 22, 2016 when the ownership group was awarded a franchise in Las Vegas, Nevada. The city was ready for major professional sports and when Foley brought the Golden Knights to Southern Nevada, the team became a state-wide phenomenon.

General Manager George McPhee began constructing the Golden Knights upon his hiring on July 13, 2016, building out his hockey operations staff and then selecting Gerard Gallant as the team's first head coach on April 13, 2017. Through calculated decisions at the NHL Expansion Draft, NHL Draft and throughout the season, the Golden Knights constructed a roster that would compete in the short term while also being well positioned for long term success.

The inaugural season of NHL hockey in the city kicked off with two road wins for the Golden Knights before the first game at T-Mobile Arena on the Las Vegas Strip. The team's home opener celebrated the bravery of the city in the aftermath of the October 1st tragedy.

After clinching the Pacific Division title on March 31, 2018, Golden Knights became the first modern-era expansion team from any of the four North American professional sports leagues to start from scratch and finish first in its division. With a fifth-place finish overall during the regular season, Vegas also became the first expansion team from any of the four North American professional sports leagues to start from scratch and finish among the top-five in the league.

Vegas went 12-3 in the first three rounds of the Stanley Cup Playoffs to reach the Stanley Cup Final, including a four game sweep of the Los Angeles Kings in the first round. They became the first expansion team to reach the Stanley Cup Final since the St. Louis Blues in 1968 and, with a victory in game one, became the first expansion team to win a game in the Final.

The Golden Knights inaugural season is considered to be the most successful first year for an expansion team in North American sports history.

Multiple Football Firsts

The Las Vegas Bowl has been the home to multiple college football milestones over the years. In 1995, Toledo and Nevada played in what was the first overtime game on the Division I FBS level. In 2002, Katie Hnida of New Mexico became the first woman to play in a FBS-level game when she entered to attempt an extra point. Also, 2011's game featured three scoring plays 98 yards or longer and was believed to be the first bowl game in history that included a kickoff return for a touchdown to start each half. The 2016 outing saw San Diego State's Donnell Pumphrey, a native of Las Vegas, return home to become the rushing king of college football when he passed Ron Dayne to finish with a career mark of 6,405 yards.

Economic Impact

How important is having a highly attended college football game to the Southern Nevada area? In research courtesy of the Las Vegas Convention and Visitors Authority, the 2019 Bowl Week provided an estimated \$23.2 million in economic impact courtesy of 21,400 out-of-town visitors. In its first quarter-century-plus of existence, the bowl attracted more than 550,000 out-of-town visitors and pumped more than \$360 million into the local economy.

Mitsubishi Motors Las Vegas Bowl

Nearly three decades old, the Las Vegas Bowl is preparing to debut a host of major changes in 2020. In fact, the first bowl game in the nation owned and operated by ESPN Events will be transformed into one of the nation's top postseason destinations as it moves into arguably the world's most dynamic football venue while sporting a unique partnership with three powerhouse collegiate conferences.

Held each December, after 28 years playing in Sam Boyd Stadium, the Las Vegas Bowl will make its home along with the Las Vegas Raiders and UNLV Rebels at the state-of-the-art, \$2 billion Allegiant Stadium located just off the World Famous Strip. The bowl will continue its two-decade-long relationship with the Pac-12 Conference while attracting two new partners in the form of the Southeastern Conference and Big Ten Conference. The block-buster agreement announced June 4, 2019, includes 40 national football brands from the three leagues that span from the Pacific Ocean to the Eastern Seaboard.

The new deal runs through the 2025 game and includes the Las Vegas Bowl moving to a post-Christmas date for the first time. During those years, the Las Vegas Bowl will have the No. 2 selection (after the College Football Playoff selection) from the Pac-12 and share that position with the Holiday Bowl. The Las Vegas Bowl will share a spot with the Belk Bowl in the SEC "pool of six" that follows the CFP and Citrus selections and host a team here in 2020, '22 and '24. Las Vegas will share a Big Ten spot with the Music City Bowl after the CFP, Citrus and Outback selections and host a team here in 2021, '23 and '25.

Organized by community leaders out of a need to fill hotel rooms during a traditionally slow period in a world-class destination city, the Las Vegas Bowl first kicked off on December 18, 1992. It has since become one of the Silver State's premier annual events and been nationally televised on ESPN, ESPN2 or ABC every year of its existence. The Las Vegas Bowl, which is the 16th-oldest NCAA active bowl game overall, has featured at least one ranked team in 13 of the last 14 games. That includes last year's 38-7 victory by Washington over No. 19 Boise State that punctuated the final game coached by Husky head man Chris Petersen before his retirement.

Follow @LasVegasBowl on Twitter, Facebook and @LVBowl on Instagram.

Wrangler National Finals Rodeo (NFR)

For the 35th consecutive year, the Wrangler National Finals Rodeo culminated the rodeo season in Las Vegas. Known as the world's richest and most prestigious rodeo, the Wrangler NFR had a total event attendance of more than 168,000 over the 10 days of competition. Since the Wrangler NFR's move to Las Vegas in 1985, total attendance for the 35 years at the Thomas & Mack Center has surpassed 5.9 million.

Held from December 5-14, the event attracted the top 120 rodeo athletes in the world, vying for a share of the \$10 million purse and the coveted gold buckle. The action on the dirt was competitive and intense from start to finish. At the end, the following earned the title of world champion: Clayton Biglow bareback riding; Ty Erickson, steer wrestling; Clay Smith (header) and Wesley Thorp (heeler), team roping; Zeke Thurston, saddle bronc riding; Haven Meged, tie-down roping; Hailey Kinsel, barrel racing; Sage Kimzey, bull riding and Stetson Wright, All-Around.

The Wrangler NFR has now sold out 330 consecutive performances. According to the Las Vegas Convention and Visitors Authority, the estimated total economic impact in 2019 for the event was \$178.5 million.

In addition to the rodeo competition at the Thomas & Mack Center, the ancillary events up and down the Las Vegas Strip and Downtown are a big part of the NFR Experience. During the ten days of the Wrangler NFR, there were 66 concerts, 31 locations that offered the live feed of the rodeo and ten days of shopping and entertainment at Cowboy Christmas. The official gift show of the Wrangler NFR featured more than 350 exhibitors at the Las Vegas Convention Center and attracted a total attendance of more than 230,000.

For information about the Wrangler NFR, please visit NFRexperience.com or @LasVegasNFR via social channels.

18b Arts District: A Perspective

Abby Stroot

President, Las Vegas Arts District Board of Directors

Owner, Pincushion

The Las Vegas Arts District Perspective

If you're looking for a truly authentic cultural experience in Las Vegas, then the Las Vegas Arts District is definitely it!

The Las Vegas Arts District, or the 18b as it is historically known, is more than 18-blocks of creative businesses in the Downtown South area of Las Vegas centered around Main Street and Charleston Boulevard. The neighborhood is full of boutiques, restaurants and bars, art spaces, antique stores, health and fitness, design studios, plus new affordable downtown housing options. The lineup is growing so there's something new to see every day.

The Las Vegas Arts District's murals attract visitors and photographers from around the world. With an enormous variety of art styles, the Arts District alley art and building murals offer something for everyone.

Looking for a must-do, must-see, must-hear experience? The city's biggest monthly community event – First Friday is your destination. Held on the first Friday of every month, this street party and art sale attracts thousands of attendees each month. Locals and visitors alike enjoy themed events, music, food, drink, live art and a variety of local culture at First Friday.

Whether you're a local or just visiting this magical city, the Las Vegas Arts District is a place not to be missed. Nowhere else will you find such a plethora of creativity and commerce. Come join us today in the 18b Las Vegas Arts District.

For more information on the 18b Las Vegas Arts District, visit www.18b.org or the Facebook pages [Facebook.com/TheLasVegasArtsDistrict/](https://www.facebook.com/TheLasVegasArtsDistrict/) and [Facebook.com/firstfridaylasvegas/](https://www.facebook.com/firstfridaylasvegas/).

The Smith Center

Heralded as the City's Heart of the Arts®, The Smith Center is an architectural triumph and long-awaited cultural achievement that educates and entertains the citizens of Southern Nevada. The \$470-million world-class performing arts center offers a blend of performances by resident companies, first-run touring attractions, lectures and internationally acclaimed performers in music, theater and dance. The 5-acre campus features four performance spaces, including the 2,050-seat Reynolds Hall, the 240-seat Myron's Cabaret Jazz, the 250-seat Troesh Studio Theater, and the 1.7-acre Donald W. Reynolds Symphony Park for outdoor concerts. Additionally, the campus is home to the DISCOVERY Children's Museum that opened in March 2013.

Designed by world-renowned architect David M. Schwarz, The Smith Center has become an iconic building in a city already full of them, and is the first performing arts center of its size and scope to be Gold LEED certified. Inside this art deco masterpiece, thousands of people of all generations and from all walks of life have been inspired by the power of the arts. The theaters were designed to provide optimal sightlines and refined acoustics. As a result, patrons can experience performances – and connect with performers – in ways they've never been able to before.

A nonprofit organization, The Smith Center has proudly served nearly 500,000 students through its education and outreach efforts since opening in March 2012. The Elaine Wynn Studio for Arts Education, located in The Smith Center's Boman Pavilion, houses offices, classrooms and additional multipurpose rooms suitable for educational workshops and other special events.

Established: 2012

Leadership:

- › Myron Martin, President & Chief Executive Officer
- › John Burnett, Vice President & Chief Financial Officer
- › Daniel Neel, Vice President, Development
- › Candy Schneider, Vice President, Education & Outreach
- › Suzanne Chabre, Vice President, Marketing & Communications and Chief Experience Officer

Parks

Clark County Parks & Recreation Department

(702) 455-8200

Clark County Parks and Recreation provides Southern Nevada with 16 urban recreation and community centers, including three centers devoted solely to seniors, 14 pool facilities with seven water parks and four indoor, year-round pools, 10 skate parks, seven dog parks and over 100 public parks with everything from picnic amenities to ball fields, playgrounds and water features. The Department also offers recreation services in rural areas including: Laughlin, Searchlight, Cal-Nev-Ari, Moapa Valley, Moapa, Bunkerville, Indian Springs, Sandy Valley and Goodsprings. Facilities include recreation centers, pools and more. Department programs include aquatic classes, sports, special events, special interest classes and a before and after school enrichment program known as Safekey.

City of Mesquite

(702) 346-8732

The Mesquite Community enjoys the benefits of an extensive parks and trails network, which connects neighborhoods with parks and other city destinations. The City has approximately 100 acres of existing parks and 718 acres of proposed parks. The trail system was designed to provide connectivity between open spaces. Currently, Mesquite contains 53 miles of built trails and 87 miles of proposed multi-use trails. The Mesquite Sports and Event Complex (SEC) is a 670-acre facility that integrates athletics with the natural environment.

North Las Vegas Parks & Recreation Department

(702) 633-2418

The Parks and Recreation Department provides programs and facilities to support citizens' diverse interests in parks, recreation and culture. The department's core services are dispersed throughout the City to enable access to all residents of the community from toddlers to senior citizens. Some of the types of facilities supporting activities in the City's parks include playgrounds, water features, tennis, sand volleyball, basketball, bocce, soccer, softball and baseball fields. The park facilities are designed to accommodate individuals, families or groups. Recreation services provide for the management and operation of the following programs and facilities: one community golf course, youth enrichment, recreation centers, Safekey, aquatics and senior services.

Outdoor Destinations & Activities

Hoover Dam & Lake Mead National Recreation Area

The Bureau of Reclamation has offered tours of this National Historic Landmark since 1937. Today, Hoover Dam draws nearly one million visitors per year. Considered to be the world's largest dam and an engineering marvel at the time of its construction in the 1930s, the dam straddles the mighty Colorado River, which forms the border between the states of Nevada and Arizona. The American Society of Civil Engineers rates it as one of America's seven modern civil engineering wonders. The Hoover Dam is a curved gravity dam. Lake Mead pushes against the dam, creating compressive forces that travel along the great curved wall. The canyon walls push back, counteracting these forces. This action squeezes the concrete in the arch together, making the dam very rigid. Today, the Hoover Dam is the second highest dam in the country and the 18th highest in the world. It generates more than four billion kilowatt-hours (kWh) per year, enough to serve 1.3 million people. The visitor center is open from 9:00 am to 5:00 pm. For tour information please call (702) 494-2517.

Source: usbr.gov/lc/hooverdam/index.html

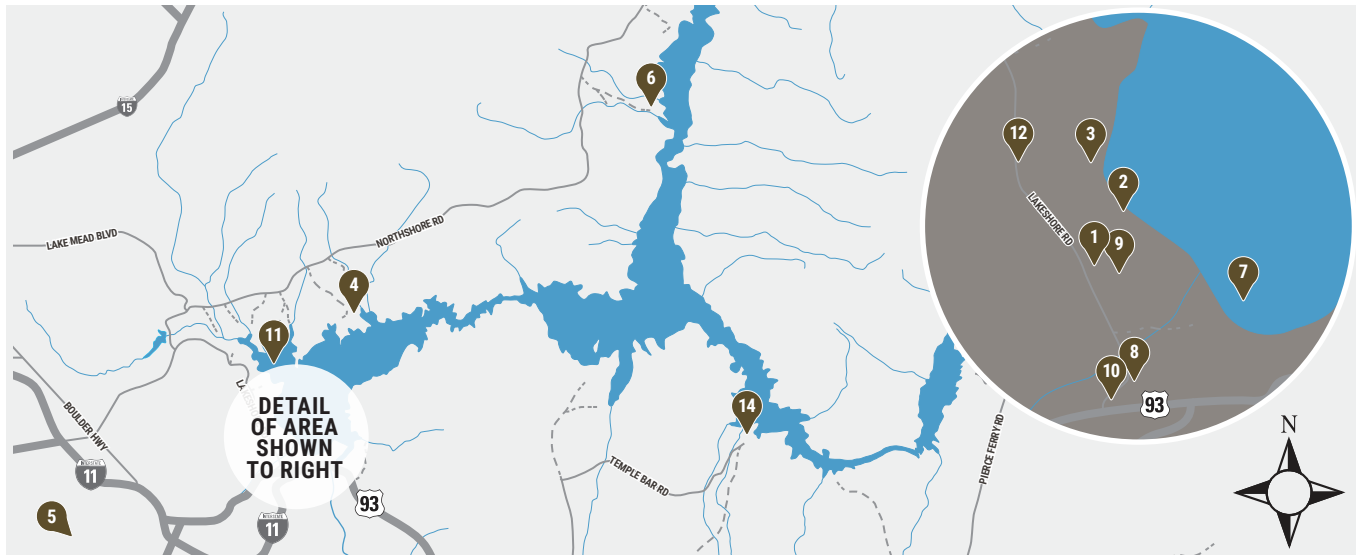

Lake Mead National Recreation Area is one of America's most diverse national recreation areas offering boating, hiking, cycling, camping and fishing. Spreading across 1.5 million acres of mountains, canyons, valleys and two vast lakes this year-round playground offers striking landscapes and brilliant blue waters. The area offers a startling contrast of desert and water, mountains and canyons, primitive backcountry and modern technology. Two powerful and uncompromising forces created this fantastic place. Nature, working slowly over millions of years, built the foundation.

The cultural resources and artifacts of Lake Mead tell a story about Native Americans, pioneers, miners, ranchers, settlers and dam builders who lived in Southern Nevada and Northern Arizona. Historic photographs captured steamships, early settlements, ranger activities, recreation and explorations. The once submerged town, St. Thomas, is also included in the artifact and photo sections of the Virtual Museum. Visit the Lake Mead Virtual Museum at nps.gov/features/lake/museum.

Humboldt-Toiyabe National Forest

The Spring Mountains National Recreation Area (SMNRA) is part of the Humboldt-Toiyabe National Forest. Better known to locals as Mount Charleston, it is located just 30 minutes from downtown Las Vegas and encompasses more than 316,000 acres of remarkable beauty and surprising diversity.

Enjoy snow-capped mountain peaks that are surrounded by desert and are home to over 50 sensitive plants and animals, some of which are found only in this special area and nowhere else in the world. The panoramic mountain range provides a quick getaway and a haven for solitude. The area offers mountain biking and hiking trails, campgrounds, picnic areas and sites for sledding, tubing, skiing and snowboarding.

Old Las Vegas Mormon State Historic Park

More than 150 years ago, a spring-fed creek flowed through the Las Vegas Valley, creating an oasis in the desert. With the only free-flowing water and grass for miles around, the site attracted the native Paiute, as well as traders, emigrants and gold seekers traveling the Old Spanish Trail to California. The Spaniards called the place Las Vegas, which is Spanish for “the meadows”. By the 1830s, the meadows of Las Vegas had become an important stop on the Old Spanish Trail. The Las Vegas springs and creek, which flowed along the southern boundary of the modern site, proved to be a very welcome amenity for those passing through. Mormon travelers began passing through the meadows of Las Vegas almost immediately after settling Northern Utah, due to the need to procure supplies from Southern California.

Old Las Vegas Mormon Fort, the first permanent, non-native settlement in the Las Vegas Valley, features the historic remains of an adobe fort built by Mormon missionaries along a spring-fed creek in 1855. The creek provided irrigation for fields and orchards and the 150-square-foot outpost served as a way station for travelers. Today, the park is located in what is now downtown Las Vegas. In addition to the fort, which contains a multitude of historic artifacts, a visitor center contains exhibits and photos that illustrate the history of the site. The park and visitor center are open from 8:00 am - 4:30 pm, Tuesday through Saturday, year-round. For more information call (702) 486-3511.

Red Rock Canyon National Conservation Area

Red Rock Canyon was designated as Nevada's first National Conservation Area. Red Rock Canyon is located 17 miles west of the Las Vegas Strip on Charleston Boulevard/State Route 159. The area encompasses 195,819 acres and is visited by more than one million people each year. Red Rock offers enticements of a different nature including a 13-mile scenic drive, more than 30 miles of hiking trails, rock climbing, horseback riding, mountain biking, road biking, picnic areas, nature observing and visitor center. The LEED gold-certified visitor center provides an outdoor experience that features four themed elements: earth, air, fire and water. Inside includes touch screen exhibits, views of Calico Hills, a classroom and gift shop.

The unique geologic features, plants and animals of Red Rock represent some of the best aspects of the Mojave Desert. Red Rock Canyon National

Conservation Area is enjoyed by the local population as well as visitors from the United States and many foreign countries. Visitors enjoy the spectacular desert landscape, climbing and hiking opportunities and interpretive programs sponsored by the BLM.

Source: <https://www.blm.gov/programs/national-conservation-lands/nevada/red-rock-canyon>

The Southern Nevada Conservancy offers a wide range of programming for visitors year-round. Offerings include guided hikes led by a Certified Interpretive Guide, tabletop programs at the visitor center and trailheads about the Canyon's natural history and cultural topics, wildflower identification with seasoned botanists and much more. Programs are listed at: <https://www.redrockcanyonlv.org/event-calendar/>

Red Rock Hiking Trails

With more than 2,000 climbing routes, Red Rock Canyon National Conservation area is one of the top five climbing destinations in the United States. There are two wilderness areas in the conservation area: Rainbow Mountain Wilderness and La Madre Mountain Wilderness. All of the major canyons in Red Rock Canyon are in the Rainbow Mountain Wilderness, and all of the climbing routes located on White Rock Mountain and many near Kraft Mountain are within the La Madre Mountain Wilderness.

Outdoor Destinations & Activities

Spring Mountain Ranch State Park

Spring Mountain Ranch State Park is located 15 miles west of Las Vegas, via Blue Diamond Rd., adjacent to the Red Rock Canyon National Conservation Area. The many springs in these mountains provided water for Paiute Indians and later attracted mountain men and early settlers to the area. This 520-acre oasis was developed into a combination working ranch and luxurious retreat by a string of owners who have given the area a long and colorful history, including German actress Vera Krupp and millionaire Howard Hughes. Visitors can explore some of the oldest buildings in Nevada, an 1860s blacksmith shop, the Sandstone Cabin that was home to the founding family and the ranch house. The park offers tree-shaded picnic sites with tables and grills, and offers various hiking trails.

The main ranch house offers visitors information about the ranch and surrounding areas, and a self-guided tour of the ranch house interior. Park volunteers are available to answer questions.

Cultural events are put on by Super Summer Theater every May through September, and living history programs bring the past back to life for a brief moment, giving visitors an opportunity to view life at the ranch as it may have once existed. These programs, which began in 1992, include costumed role playing, demonstrations and re-enactments of historic events such as the Civil War. For more information call (702) 875-4141.

Source: parks.nv.gov/parks/spring-mountain-ranch

Valley of Fire

Valley of Fire is world-renowned for its 40,000 acres of bright red Aztec sandstone outcrops nestled in gray and tan limestone. As Nevada's oldest and largest state park, it contains ancient petrified trees and petroglyphs dating back more than 2,000 years. The park offers a full-scale visitor center that provides exhibits on the geology, ecology, prehistory and history of the park and nearby region. Open year round, the park has numerous campsites equipped with shaded tables, grills and

water, as well as many intriguing trails. Valley of Fire State Park is six miles from Lake Mead and 55 miles northeast of Las Vegas via Interstate 15 and exit 75.

The visitor center is open daily from 9:00 am to 4:30 pm. The rest of the park is open daily from sunrise to sunset with 24-hour access to campgrounds. For more information call (702) 397-2088.

Get Outdoors Nevada: A Perspective

Mauricia Baca
Executive Director

From your perspective, what makes Las Vegas a great place for people who love the outdoors?

If you love the outdoors, you belong in Las Vegas. Our communities are linked by over 1,000 miles of trails. These trails lead to thousands of acres of community and regional parks in the Las Vegas valley encircled by over 7.5 million acres of public lands. From expansive deserts and lakes to spectacular wildlife and outdoor fun, the area has something for everyone. The Las Vegas valley has 300 days of sunshine annually that invite residents and visitors out to enjoy recreational opportunities including biking, hiking, canoeing, kayaking, boating, skiing, and climbing. You can go for a walk, or simply enjoy a family picnic. Memorable sights include sure-footed bighorn sheep, prickly Joshua trees and rugged desert landscapes offering spectacular vistas. You can go from desert floor to mountain top, to a lake and a river – all in under an hour from the Strip. In 30 minutes, you can be at Lake Mead where you can boat, fish, hike, camp and explore the Colorado River's Black Canyon by Kayak. Miss the snow? In the winter Mt. Charleston, at nearly 12,000 feet high, beckons with snow-capped mountains, just 40 miles northwest of Las Vegas, while providing a lush, cool retreat in the summer. Red Rock Canyon National Conservation Area, Las Vegas' most popular hiking destination, offers rust-colored rock formations, as well as sandstone and limestone cliffs and bluffs that ascend as high as 7,000 feet. A mere hour from Las Vegas, Valley of Fire, amazes with beautiful landscapes, 3,000-year-old petroglyphs and, like much of the area, is jeweled by wildflowers in the spring. There is so much more...from Clark County Wetlands Park to the mountain biking destination that has become of Boulder City's renowned Bootleg Canyon. All reasons why, if you love the outdoors, you belong in Las Vegas.

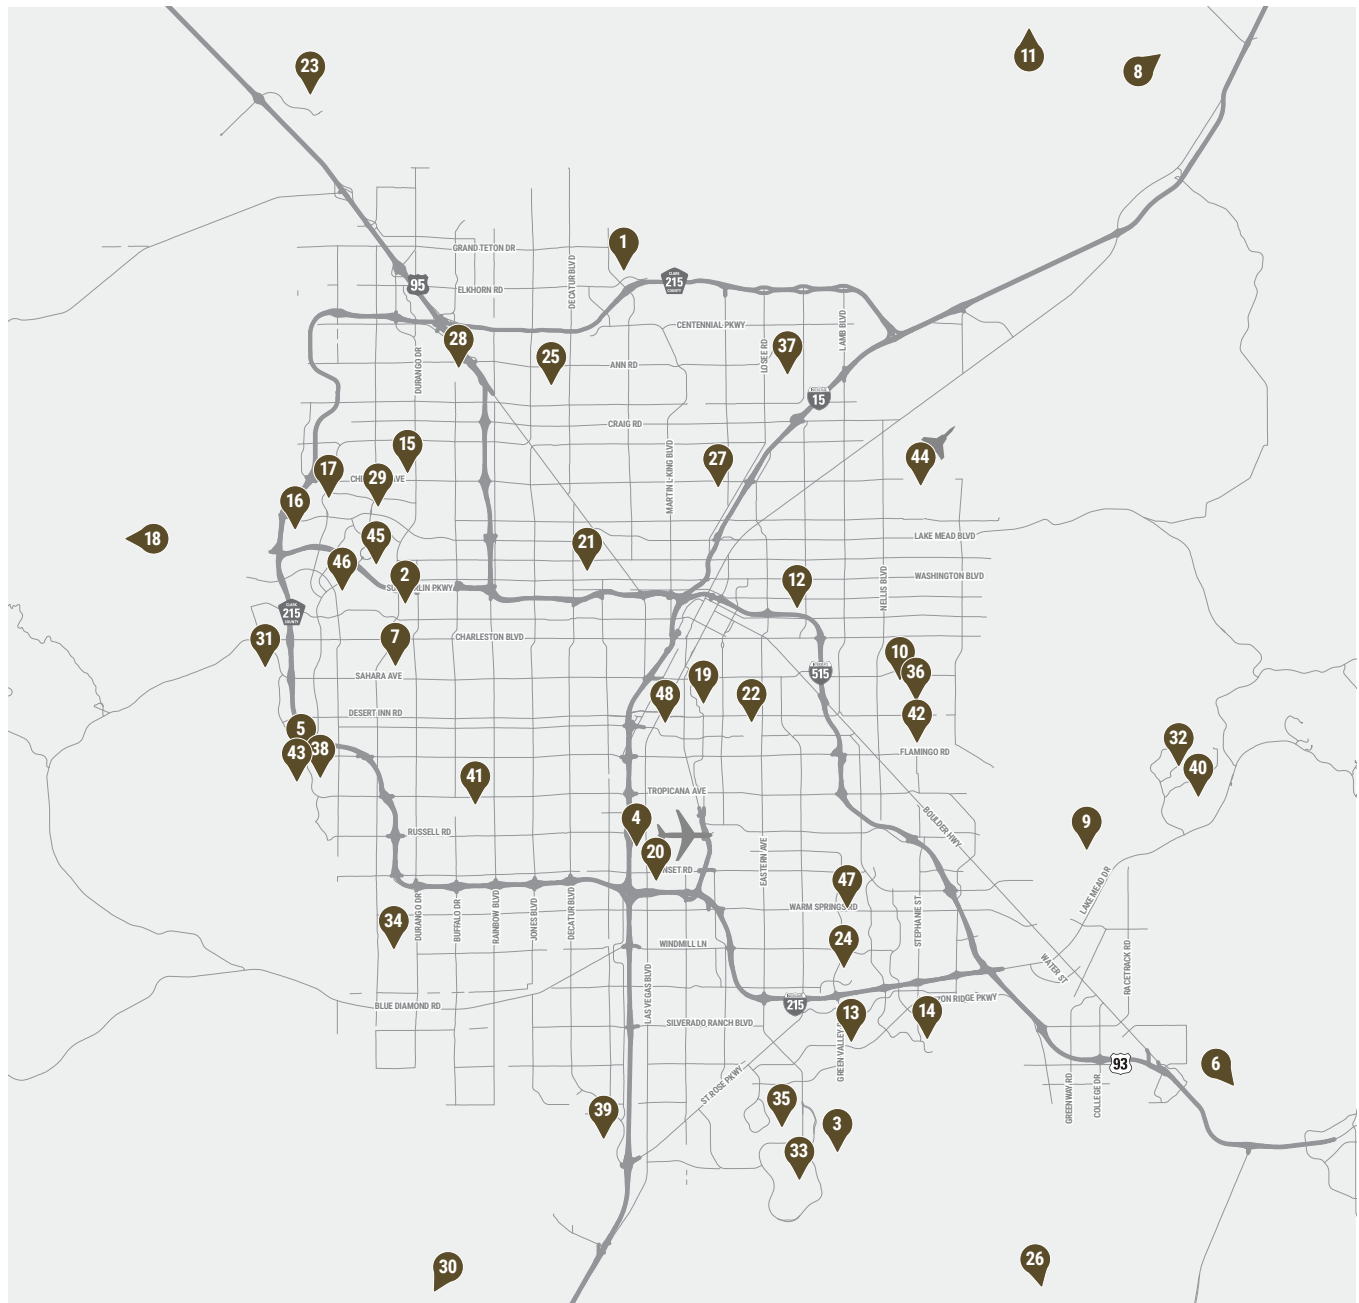

GET OUTDOORS NEVADA

Get Outdoors Nevada is dedicated to connecting people of all backgrounds and ages to Nevada's diverse outdoor places through education, volunteerism and outreach. We strive to foster and support a community that discovers, experiences and connects to our state's many natural environments, from wild landscapes and recreational areas to urban trails. We invite everyone to visit our website at www.getoutdoorsnevada.org to learn more about our programs and how to get inspired, get moving, care for and support this great big beautiful backyard of ours called Nevada.

Colleges and Universities

University of Nevada, Las Vegas

The University of Nevada, Las Vegas (UNLV) is a public research institution committed to rigorous educational programs and promoting well-being and achievement through education, research, scholarship, and creative activity.

UNLV currently holds the nation's highest recognition for both research and community engagement from the Carnegie Foundation for the Advancement of Teaching - the gold standard for university metrics.

Since its first classes were held in 1957, UNLV has transformed from a small branch campus into a thriving university. UNLV offers more than 290 bachelor's, master's, and doctoral degree programs and 100 certificate programs, including internationally and nationally recognized programs in hospitality administration, engineering, business, creative writing, conflict resolution, legal writing, public health, and nursing.

UNLV graduates are dedicated to meeting the challenges brought on by rapid urban growth, economic and cultural diversity, and sustainability, and overwhelmingly choose to remain in Southern Nevada. More than 60 percent of UNLV alumni reside in the state, including more than 5,000 K-12 teachers; 9,000 hotel and tourism professionals; and thousands of health care professionals, business owners, and managers. Eighty percent of Boyd School of Law graduates remain in state. UNLV's School of Dental Medicine students provide more than \$3.8 million in free dental services to those in need.

UNLV is continuing toward its broader Top Tier vision to become one of the nation's premier public universities in research, education, and community impact by 2025. UNLV attracts top students and faculty, educates a diversifying population and workforce, and drives economic activity through innovation, research and community partnerships.

Established: 1957

Leadership: Marta Meana, President

Employees: 4,002 (Sept. 1, 2019)

Annual Budget: \$771 million (2019)

Mission: UNLV's diverse faculty, students, staff, and alumni promote community well-being and individual achievement through education, research, scholarship, creative activities, and clinical services. We stimulate economic development and diversification, foster a climate of innovation, promote health, and enrich the cultural vitality of the communities that we serve.

Services Provided: Undergraduate, graduate, professional education, and research

Economic Impact: \$2.51 billion (2017)

Business Development: Partnerships create greater impact in our community and throughout Nevada. UNLV collaborates with the private and public sectors to build degree and professional development programs in health care, hospitality and gaming, engineering, business. The university is home to Nevada's only law and dental schools, and its School of Medicine welcomes its fourth incoming class of future physicians in 2020.

As part of its comprehensive Top Tier strategic plan, UNLV stimulates economic development and diversification and enriches the cultural vitality of its community. The university is deepening and expanding reciprocal connections with partners and leveraging unique strengths to collaborate locally, nationally, and internationally.

Note: Students enrolled in graduate/professional degree programs are included in both categories. However, overall totals reflect unduplicated counts, and thus may not equal the sum of the categories. Student Full-Time Enrollment includes state-supported (formula-funded) enrollments only. ¹Age information is not available for all students.

Governor Guinn Millennium Scholars

	2015	2016	2017	2018	2019
Eligible High School Students	11,312	12,724	13,746	14,523	15,346
Scholarships Activated¹	7,345	7,986	8,707	8,751	7,897
Currently Eligible	4,102	4,909	5,720	6,082	7,504

Source: State of Nevada, Office of the State Treasurer.

Note: Millennium Scholarship data as of January 24, 2020. Degrees earned since inception: Bachelors - 29,439; Associates - 19,253; and Certificates & Other - 3,137. Total Funds distributed to date: \$503 million. ¹Students have six years to use their scholarship, so this number is constantly increasing over that period of time as students start school after a break or service, switch institutions, etc.

31,171

2019 Total Enrollment

Colleges and Universities

MILLENNIUM SCHOLARSHIP QUALIFICATIONS:

- Graduate with a diploma from a Nevada public or private high school.
- Must have been a resident of Nevada for at least two of your high school years.
- Must finish high school with an overall 3.25 GPA for all coursework or receive a qualified score on the SAT or ACT.
- Must have completed the minimum core curriculum requirements: 4 credits in English, 4 credits in Math (including Algebra II or higher), 3 credits in Science and 3 credits in Social Studies and History.

Economic Impact Highlights

- UNLV stimulates economic development and diversification through deepening and expanding connections with new and existing partners. Such collaborations create monumental impact in the Silver State, and UNLV is partnering with industry to build degree and professional development programs and to conduct research that addresses today's challenges.
- As one of the largest employers in Clark County, UNLV generated \$2.51 billion in local economic activity in 2017. For every dollar invested by the state in UNLV, the university generated an additional \$12.50 in economic activity in Southern Nevada. Each dollar of student off-campus spending also generated approximately \$2.04 of economic activity in the community.
- By 2025, UNLV is estimated to bring increased spending to Nevada, generating \$3.33 billion in local economic activity and supporting more than 19,000 direct and indirect jobs. This includes an economic impact of \$468 million, with direct spending of \$165 million generated by the UNLV School of Medicine alone.
- Additional economic value exists in the education provided to students, in the enduring effects of research and development, in advanced science and technology, and in a highly-trained and globally-competitive workforce, all of which help attract new industries that further diversify Nevada's economy. Benefits exist beyond the numbers as well: UNLV makes significant contributions through social and cultural events that connect us with each other, that create community, and that enhance our lives in a multitude of ways that can't be quantified.

Recent Highlights

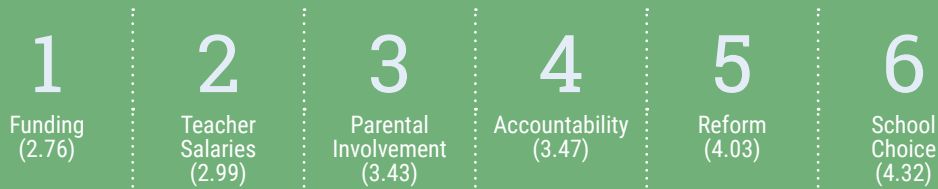

- UNLV achieved R1 “very high research activity” status according to the Carnegie Classification of Institutions of Higher Education. UNLV is one of 130 institutions—out of 4,000 colleges and universities nationwide—to hold the prestigious R1 status. It is viewed as the gold standard for university research metrics.
- UNLV earned the Carnegie Classification for Community Engagement, the highest national standard for higher education institutions in this area. The recognition reflects UNLV’s strong collaboration with community partners to enrich scholarship, research, and creative activity, enhance curriculum, teaching and learning, and address critical societal issues
- U.S. News & World Report named UNLV one of the nation’s most diverse universities for undergrads, and more than 65 percent of its degree-seeking undergrads identifying as part of a racial or ethnic minority. UNLV meets federal Minority Serving Institution requirements as an Asian American, Native American, and Pacific Islander-Serving Institution and a Hispanic Serving Institution.
- A UNLV-record 22 programs – including 13 from the William S. Boyd School of Law – ranked among the top 100 in their fields as part of U.S. News & World Report’s annual collection of top graduate and professional schools. UNLV’s nursing master’s and doctoral programs both ranked 40th overall, joining online nursing master’s program which already ranks as the nation’s 11th best.
- With more than 1,800 military affiliated students, UNLV continues to be recognized as a “Best for Vets” and military-friendly university.
- The UNLV School of Medicine is changing the health care landscape in Southern Nevada. An emerging leader in medical education and innovative practice, the school now has 176 students, 325 residents and fellows, and it received 1,800 applications for 60 spots in the fourth class set to begin in the summer of 2020.

Community Survey

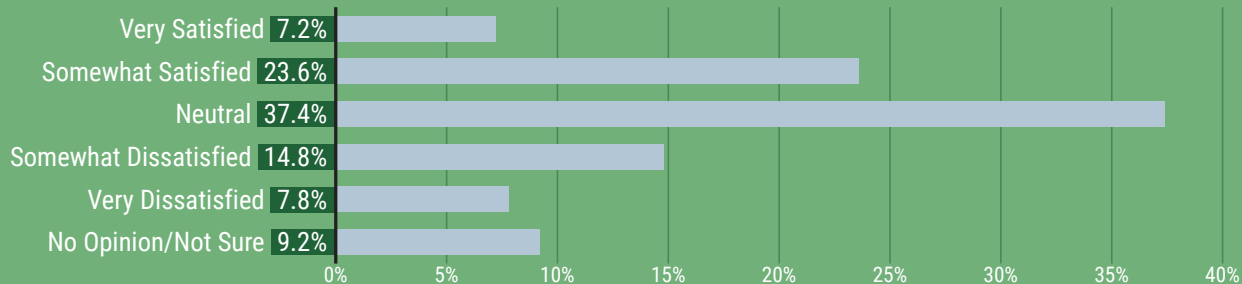

Nevada Education System

Please rank the following options as possible solutions to the Nevada education system:

Note: 1 is most important, 6 is least important. (Avg. Rank)

How satisfied are you with the leadership of the Nevada System of Higher Education?

Established: 1971

Leadership: Dr. Federico Zaragoza, President

Employees: 2,709

Annual Budget: \$159 million

Mission: The College of Southern Nevada empowers our students and communities to achieve, succeed and prosper.

Services Provided: CSN is a community college, specializing in two-year associate degrees that lead directly to employment or transfer to four-year institutions. In addition, CSN offers dual credit, certificates, associate degrees, honors programs, a handful of bachelor's degrees, adult basic education, workforce training, customized business training (contract education), WorkKeys assessment, National Career Readiness Certifications, personal enrichment, leadership training, internship opportunities and unique, nimble private and public partnerships.

Economic Impact: \$1.1 billion

Website: csn.edu

College of Southern Nevada

As the largest and most ethnically diverse college in Nevada, The College of Southern Nevada (CSN) is this community's college and provides affordable and collaborative postsecondary education and workforce training. CSN is a fully accredited institution offering over 180 degrees and certificates in more than 70 academic programs—with 26 degrees and certificates available entirely online. We're also extremely accessible with three main campuses in Las Vegas, North Las Vegas, and Henderson, as well as multiple sites and centers throughout the region.

Keeping things personal is also something we take great pride in. Our student-to-faculty ratio of 27 to 1 ensures that students get the most out of their education. Outside the classroom, we offer a variety of clubs, activities, and organizations to keep students engaged and connected. If sports are your thing, our baseball team is frequently a contender and has even taken home a national championship. Our CSN Coyotes are also proudly represented in team baseball, softball, soccer and volleyball to round out our growing athletics department.

CSN's innovative Division of Workforce and Economic Development provides workforce and customized business/industry training. It is also home to the largest adult literacy and language program in the state, helping thousands of southern Nevadans earn their high school equivalency certificate (formerly known as the GED) and learn the English language.

Key Highlights

- › CSN provides the most affordable pathway to a two- or four-year college degree in Southern Nevada
- › CSN is Nevada's first Hispanic Serving Institution
- › CSN has the largest associate degree Registered Nursing Program in Nevada
- › CSN is home to the largest Cisco Academy in the West
- › CSN is a Minority Serving Institution
- › CSN is an Achieving the Dream Institution focused on increasing the number of college-educated Nevadans

Nevada State College

When it was founded, Nevada State College made a promise to provide access to a wide range of baccalaureate degrees for a diverse student population and improve their workforce readiness, especially for in-demand careers in health care, education and business. We have proven that a quality college education can be accessible and affordable.

The college has grown to offer more than 50 high-demand majors and minors. Each program is taught by top-tier instructors with a focus on innovation, technology, and career development. The traditionally small classes are facilitated by faculty who serve as mentors and guides not only in the classroom, but in life. Programs are offered online, on-site and as a hybrid of both. Program curriculum at the college is developed based upon the needs of the local community and the demands of its students. Popular programs include nursing, education, criminal justice, business administration, visual media, biology, speech pathology and psychology.

Nevada State is accredited by the Northwest Commission on Colleges and Universities, which has commended Nevada State for remaining true to its mission during a time of unprecedented growth while ensuring a climate that prioritizes and promotes the success of its diverse student body.

Nevada State College has been recognized as the second-fastest growing public state four-year college in the nation. The college welcomes an eclectic population of students with more than 60 percent of its students from culturally diverse backgrounds. It also has been identified nationally as a Minority-Serving Institution (MSI), Hispanic-Serving Institution (HSI) and Asian American and Native American Pacific Islander-Serving Institution (AANAPISI). Additionally, 58 percent of Nevada State College students are the first generation in their families to seek higher education.

The college's campus is located in Henderson, Nevada, just 15 minutes from the world-famous Las Vegas Strip. The rapidly growing institution is comprised of several buildings: The Rogers Student Center, which houses the school's all-digital library, café, ballroom, Career Services Center, Disability Resource Center, executive and student government offices, and study spaces; the Kasner Academic Building, which provides state-of-the-art learning facilities including a cadaver lab, live-streaming finance lab, and a 250-seat auditorium; the Raker Student Success Center, which is a one-stop-shop for current and prospective students housing the offices of the Bursar, Financial Aid, Advising, and Admissions; and the Dawson Building, which includes classrooms, a fitness center, and facilities and police services. The new Glenn and Ande Christenson School of Education Building is currently under construction along with the first on-campus student housing. The Village, Nevada State student housing, will be ready fall 2020 while the Christenson School of Education Building opens fall 2021.

Throughout the campus, a strong commitment to the arts can be seen with paintings and sculptures that fill the hallways and common areas. With more than 500 acres of land at its disposal, Nevada State College lives up to its calling to: Be bold. Be great. Be State.

- › Dr. Vic Etyemezian, Interim Vice President for Research

Employees: 400

Annual Budget: \$45 million

Mission: We excel in basic and applied research and the application of technologies to improve people's lives throughout Nevada and the world. We implement this mission by fostering scientific and engineering talent. We apply scientific understanding to the effective management of natural resources while meeting Nevada's needs for economic diversification and science-based educational opportunities.

Services Provided: DRI's research calls on the expertise and methods of scientists from over 40 different scientific disciplines. More than 400 highly-skilled scientists, engineers, technicians, and students are collaboratively focused on understanding and answering critical environmental science questions about global climate change, water quality and availability, air quality, sustainability of desert lands, life in extreme environments, and more. DRI has more than 40 specialized laboratories and research facilities available for contract research and development and scientific discovery.

Economic Impact: DRI faculty attract more than \$31 million in research grants and contract revenue annually to Nevada. Research dollars support research faculty, graduate students and post-doctoral students, and campus operations in our Reno and Las Vegas communities.

Website: dri.edu

Desert Research Institute

The Desert Research Institute (DRI) is a recognized world leader in basic and applied interdisciplinary research. Committed to scientific excellence and integrity, DRI faculty, students, and staff have developed scientific knowledge and innovative technologies in research projects around the globe. Since 1959, DRI's research has advanced scientific knowledge, supported Nevada's diversifying economy, provided science-based educational opportunities, and informed policy makers, business leaders, and community members. With campuses in Reno and Las Vegas, DRI is one of eight institutions in the Nevada System of Higher Education.

Recent Research & News Highlights

Extreme heat events around the world are getting hotter, occurring more often, and lasting longer—these trends pose significant health risks to the growing number of people in urban areas of the desert Southwest like Las Vegas. In spring 2019, a DRI-led research team identified a clear correlation between heat wave episodes and deaths in Las Vegas over the last ten years: as heat wave intensity increases, the number of heat-related deaths does, too. With more intense, more frequent, and longer lasting heat events projected in the coming years, researchers hope that the trends identified in this study can assist local decision-makers to protect the most vulnerable groups in Las Vegas from heat-related health risks.

A collaboration between DRI and the Bureau of Reclamation aims to improve our understanding of evaporation from Lake Powell and other major reservoirs through the deployment of floating evaporation stations. By collecting data from multiple sites in the reservoir, the research team will learn about how evaporation rates vary at different locations and at different times throughout the year. The end goal: to help scientists and water managers make accurate evaporation estimates using the best available science, at Lake Powell and elsewhere in the world.

Nevada's "Lost City," located northeast of Las Vegas, has been lost twice before – first abandoned by the native people who built it, then later flooded beneath the waters of Lake Mead – but a team of DRI archaeologists hopes to ensure that it isn't lost a third time. In the summer of 2019, the DRI research team began using unmanned aircraft systems (UAS), commonly known as drones, to create high-res, 3D maps of the Lost City archaeological site, which consists of adobe structures that date back more than 1,000 years. Working with the National Park Service, the team will use the detailed maps to devise strategies to preserve the site.

In the fall of 2019, DRI scientists began two complementary studies at The Nature Conservancy in Nevada's 7J Ranch, which will install meteorological stations and develop a model to monitor how future restoration activities at the 7J Ranch will affect its water resources. Located near Beatty, Nevada, the ranch's unique geography and location where the Great Basin and Mojave deserts meet, and its habitat for many endemic and endangered species, make it a globally important site for conserving biodiversity and give it strategic value for facilitating climate change adaptation for wildlife.

Photo – DRI scientist Gabrielle Boisrame, Ph.D., (left) and graduate research assistant Rose Shillito from the University of Nevada, Las Vegas (right) survey a site prior to installing scientific equipment at The Nature Conservancy's 7J Ranch on September 18, 2019.

Western Governors University (WGU)

We believe that education is one of the greatest catalysts for individuals to change their lives, and every individual has the capacity for learning and attainment. This is why for more than 20 years, nonprofit online Western Governors University has led the way in designing, developing and implementing high-quality, student-focused higher education.

The 19 bipartisan U.S. governors who founded WGU in 1997 knew that reinvigorating the promise of higher education required a rethinking—a reinvention, even—of the institutions and systems of post-secondary education, and leveraged technology to pioneer competency-based education (CBE), which measures learning rather than time.

Because we believe that big ideas and practical innovations are necessary to reinvent how education is aligned, accessed, afforded, delivered, and experienced, WGU continues to develop and implement innovations that support our mission to improve quality and relevance, expand access, and optimize student outcomes.

Because we believe that every individual has the right to access high-quality education with an expectation of great outcomes, we ensure that WGU is affordable and flexible and that our programs expand educational opportunity for underserved students. Today, 71 percent of WGU students are underserved in one or more of four categories: ethnic minority, rural residents, low income and first-generation college students.

We believe that education provides individuals and families with one of the surest pathways to a better life, and WGU has established and maintained our leadership position through obsessive focus on the student and consistent adherence to our mission.

Established: 1997

Leadership: Scott D. Pulsipher

Employees: 6,873

Annual Budget: \$800 million

Mission: The principle mission of WGU is to improve quality and expand access to post-secondary educational opportunities by providing a means for individuals to learn independent of time or place and to earn competency-based degrees and other credentials that are credible to both academic institutions and employers.

Services Provided: Over 60 undergraduate and graduate degrees in four academic colleges: Business, Health Professions, Information Technology, and Teachers College.

Economic Impact: Since 2013, the University has reduced overall student borrowing by over \$400 million.

WE RISE

Keep disappointing your doubters

They said you'd never land the job. But you did. They said you couldn't work while raising a family. But you did. Again and again, you've refused to let others tell you how to live. So we're not going to tell you how to study. Online. On campus. You call it — like you always have.

Regional Medical Schools

UNLV School of Medicine

Since welcoming the first class of medical students in July of 2017, the UNLV School of Medicine is on its way to becoming a premier center of excellence and innovation for medical education, patient care and research. UNLV Medicine is a four-year allopathic, academic medical center with a goal of increasing the number of physicians and trained specialists who are committed to providing world class care with a heart. UNLV Medicine is the clinical arm of the medical school, operating 17 clinics that deliver cutting edge, evidence-based medicine to approximately 120,000 patients annually. More than 140 faculty physicians, who understand that good health is the greatest wealth, are involved in more than 20 research specialties, including pediatrics, neurology, general surgery, plastic surgery, diabetes, obstetrics and gynecology, internal medicine, gastroenterology, rheumatology, orthopedics, pulmonology, cardiology and geriatrics.

Established: 2014

Leadership: Marc J. Khan, MD – Dean

Business Development: Touro is in the midst of a multi-year campus expansion project to accommodate future opportunities for growth.

Website: tun.touro.edu

Touro University Nevada

As the largest medical school in the State of Nevada, Touro University Nevada continues to lead the way in addressing the healthcare provider shortage in Southern Nevada.

Touro is seeing record admission applications for its competitive programs and 100 percent placement of Touro medical students in post-graduation residency programs. Touro is uniquely positioned to provide Nevada's future healthcare providers and educators with an innovative, team-based, and community focused education that serves the citizens of the State of Nevada now and well into the future.

Innovative Experiences

Touro believes the best educational outcomes are achieved when you incorporate experiences outside the traditional classroom or laboratory.

- › Simulated Technology – Touro's Michael Tang Regional Center for Clinical Simulation incorporates hands-on training in virtual medical scenarios as part of the curriculum of every healthcare program.
- › Preparing for Disaster – The Stephen J. Cloobek Regional Center for Disaster Life Support is the only regional center for the training of students, healthcare providers and first responders in the event of a mass casualty disaster that is accredited by the National Disaster Life Support Foundation.
- › A Human Perspective – Although many programs are moving solely to virtual technology to teach future healthcare providers, Touro understands the interaction with the human body and human beings is critically important to the educational process. Touro utilizes every technological advancement to augment the use of human cadavers in teaching anatomy. The university also works with patient actors to simulate medical conditions and help students become familiar with diagnosis and patient interactions.

Collaborative Education

The unique single building campus environment at Touro provides opportunities for collaboration and interprofessional education (IPE) experiences across academic programs, preparing future professionals for the new collaborative approach to healthcare.

Engaged Perspective

Involvement in the local community is a central part of the Touro Nevada experience. Students have numerous opportunities to apply their classwork to real-world situations through Touro's mobile healthcare outreach initiative, partnerships with local organizations and on-campus patient care facilities.

Roseman University of Health Sciences

Founded in Henderson, Nevada in 1999, Roseman University of Health Sciences is a non-profit, private institution of higher learning training the next generation of undergraduate and graduate level health care professionals that serve, collaborate and set new standards in their communities and within their professions. With campuses in Henderson, Summerlin and South Jordan, Utah, the University is comprised of the College of Dental Medicine, offering an Advanced Education in Orthodontics and Dentofacial Orthopedics/MBA residency, Advanced Education in General Dentistry and Doctor of Dental Medicine program; College of Pharmacy, offering a Doctor of Pharmacy and Professional Continuing Education; College of Nursing, offering a Bachelor of Science in Nursing, Accelerated Bachelor of Science in Nursing and Master of Sciences in Nursing-Family Nurse Practitioner, and an MBA program. Roseman University of Health Sciences will also offer a Doctor of Medicine through its College of Medicine, once it becomes accredited. More than 6,500 Roseman graduates are caring for patients, conducting research, and engaged in public health and policy in Nevada, Utah and across the country. Roseman University is regionally accredited by the Northwest Commission on Colleges and Universities.

Established: 1999

Leadership: Renee Coffman, President

Nevada Employees: 307 full- and part-time employees

Nevada Students: 700

University Alumni: 6,500

Annual Budget: \$102 million

FY19 Net Assets: \$86.2 million

Total Assets: \$212.8 million

Mission: Roseman University of Health Sciences advances the health and wellness of the communities we serve by educating current and future generations of health professionals, conducting research and providing patient care. We actively pursue partnerships and affiliations that are aligned with our mission, work to create an environment that fosters both internal and external collaboration to achieve optimal outcomes, and are committed to responsible fiscal management in all endeavors.

Services Provided: Undergraduate, graduate, professional health sciences education, medical and dental patient care, and biomedical research.

Website: roseman.edu

Recent Highlights

- › During the 2019-2020 academic year beginning in July 2019, Roseman University celebrated its 20th Anniversary. The University was established as the Nevada College of Pharmacy on Whitney Mesa in 1999.
- › In January 2020, Roseman University's College of Nursing enrolled its first class in a new Master of Science in Nursing/Family Nurse Practitioner program.
- › Spring 2020, a Roseman University bond of \$70.3 million was issued for purchase of properties.

Clark County School District

Established: 1956

Leadership:

- › CCSD Board of Trustees
- › Executive Cabinet

Employees: 40,922 people, including full-time, part-time and temporary employees, plus substitutes

Annual Budget: The amended final budget for the 2019-20 school year is \$2.556 billion, with basic per-pupil state funding at \$6,067. Adding other local and federal sources to state funding brings the total per-pupil expenditures to \$9,861. This excludes, Vegas PBS; Adult Education; Capital; Debt; Food Service; and Internal Services Funds.

Services Provided: Pre-K through 12th-grade education, adult education, and special education

Website: ccsd.net

Established in 1956, the Clark County School District (CCSD) is the number one choice for families and students. CCSD educates approximately 320,000 students – offering a variety of nationally recognized programs, including Magnet Schools and Career and Technical Academies, as well as International Baccalaureate, dual credit, workforce development and Advanced Placement courses.

Through these programs – plus an online secondary school and open enrollment offerings – CCSD offers the best choices to meet individual student needs. As the nation's fifth-largest school district, and the fourth-largest rural district in the state, CCSD has the ability to provide additional services such as a school police department, adult education courses, and innovative community partnerships with Vegas PBS and The Public Education Foundation.

CCSD educates 66 percent of the students in Nevada and works closely with community partners and business leaders to educate the workers needed to strengthen our economy.

Vision

All students progress in school and graduate prepared to succeed and contribute in a global diverse society.

Source: <https://magnet.ccsd.net/programs-of-study>. Notes: *Type of Program: M - Magnet School; CTA - Career and Technical Academies; S - Select Schools. **Grades K-8.

What are Magnet/ Career and Technical Academies (CTA) programs?

CCSD magnet programs offer learning opportunities related to various themes for interested students. Students from across the District may apply to a magnet program regardless of the region in which they reside, however, transportation will only be provided to students living within the designated transportation boundary for the magnet program. The purposes of magnet programs are to improve student achievement, promote diversity, and create an awareness of career opportunities relative to the fields of study in which students may be interested.

What are Select Schools?

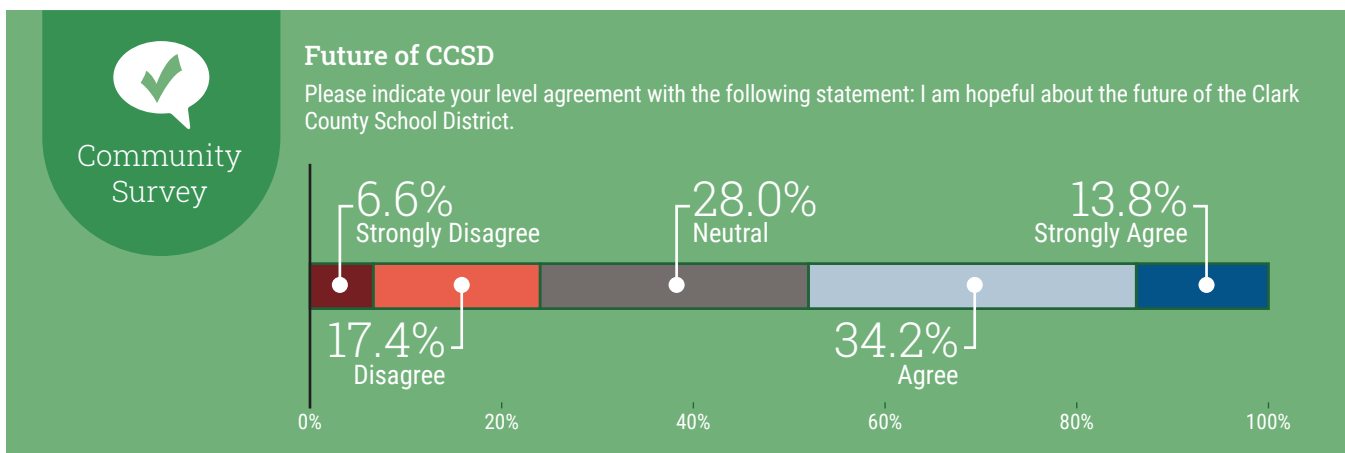

The five CCSD Select Schools are designed to provide families with additional school choice options. Select Schools offer outstanding Career and Technical Education (CTE) programs of study, Advanced Placement courses, and other specialized programs. Many CTE programs offer industry certification for students who complete the entire course of study. The focus of CTE is to ensure that all students have access to rigorous, blended college-preparatory and career-oriented programs that lead to marketable skills for the 21st Century.

Nevada School Choice Coalition

As a tax credit program, the Opportunity Scholarship is privately funded by corporations, which receive a dollar-for-dollar tax credit against their Modified Business Tax liability, enabling corporations to direct their tax liability toward K-12 education. To be eligible for a scholarship of up to \$8,262 for K-12 private school tuition and fees for the 2019-20 school year, household income must not exceed 300% of poverty level. Through the Opportunity Scholarship program, eligible Nevada families had access to \$11.4 million dollars in funding to go towards the education of their choice last year.

Established: 2015

Leadership: Valeria Gurr, Nevada State Director

Employees: 2

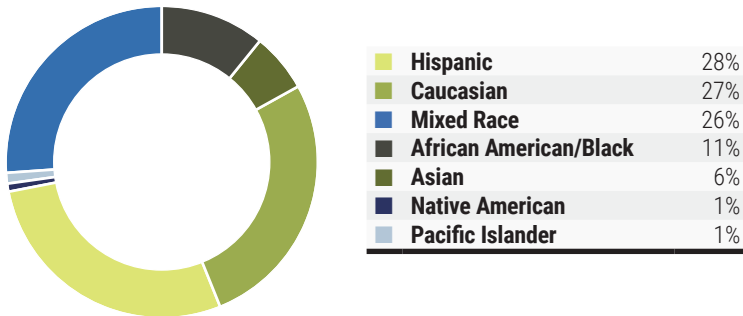

Mission: The Nevada School Choice Coalition is dedicated to advocating for school choice, which empowers parents to choose the best educational environment for their children. Our goal is that all children, particularly those from low-income families, have access to a better, quality education—whether that’s at a public school, private school, charter school, home school or any other learning environment the parents choose.

Services Provided: The Nevada School Choice Coalition raises awareness, promotes and provides resources and trainings about school choice to families, policymakers, and business and community leaders in an effort to advance school choice in Nevada. We particularly focus on charter schools and the current educational choice program: The Opportunity Scholarship.

Impact: Since 2015, the Nevada School Choice Coalition has informed over 100,000 families about educational options in the state and hundreds of families have been assisted in applying for tax credit scholarships, also known as Opportunity Scholarships. In addition, increased media and social media efforts have aided in the success of the program and 2,306 children are now on scholarship. Partnerships with the following chambers and organizations were formed helping to increase the reach of the Coalition’s mission and message: the Latin Chamber of Commerce, Urban League, the Peruvian Chamber of Commerce, Nevada Hispanic Business Group, the Nevada Pastors for School Choice and the newly formed Nevada CAPE chapter (Council for American Private Education).

Website: NevadaSchoolChoice.com

Opportunity Scholarship Student Race/Ethnicity

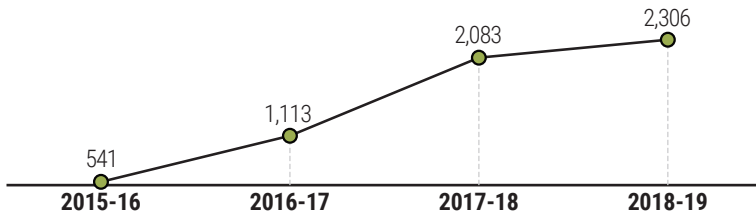

The Opportunity Scholarship program serves students from low-income households and diverse race and ethnic backgrounds, providing opportunity to the most disadvantaged children.

\$45,694

Average household income for recipients

Opportunity Scholarship Student Enrollment

This 2018-19 school year, scholarships in the amount of \$12,574,192 were awarded to a total of 2,306 students enrolled in 90 participating Nevada private schools, which is a 10 percent student participation increase from the prior year.

Highlights

During the 2019 legislative session, the Opportunity Scholarship Program was awarded a one-time increase of \$9.5 million. As a result, the total cap increased to \$22.8 million for the biennium and re-adjusted to \$6.6 million for 2021-22.

24 hours a day/7 days a week

erjustgoteasier.com lets you:

- Request a time in the Emergency Room for non-life-threatening illnesses and injuries and wait in the comfort of your home for your time.
- Check ER wait times at The Valley Health System hospital nearest to you.

ER Wait Time is an average provided for informational purposes only. Use ER Reserve only if you decide your care can wait until the time you select. Do not wait if your symptoms or conditions worsen or if you need immediate care since delays may complicate your condition. If you are unsure of your condition or if your condition worsens, then please go to the nearest emergency room or call 9-1-1. Some insurance plans may not cover an ER visit if it is deemed urgent care or may apply a different co-pay. Please check your covered benefits with your insurance provider for details. Physicians are independent practitioners who are not employees or agents of The Valley Health System. The system shall not be liable for actions or treatments provided by physicians. For language assistance, disability accommodations and the non-discrimination notice, visit our website. 201647-1698 3/20

Centennial Hills Hospital

Centennial Hills Hospital provides a wide range of medical services and procedures. For more than ten years, the hospital has been delivering babies, saving lives and taking care of the hearts of the Northwest and North Las Vegas communities. Centennial Hills Hospital also cares for a wide range of medical situations that arise from accidents at Mount Charleston National Recreation Area, to procedures for spines and joints.

To accommodate the growing community, the hospital in mid-2019 started construction on a master plan project that includes a new, five-story patient tower expansion. Phase one, valued at an estimated \$95 million, will add 77 patient beds, increasing the total bed count to 339. This addition will provide increased capacity in the Neonatal Intensive Care Unit, Intensive Care Unit, Intermediate Unit and Medical Surgical Units across the hospital. The project will also expand key departments, including inpatient pharmacy, surgical services, and the post-anesthesia care unit. The patient tower is expected to be completed in early 2021, with the remaining internal renovations to be completed in the later part of 2021.

News of the five-story tower expansion comes less than two years after Centennial Hills Hospital completed the final two floors of its eight-story tower, adding 60 private patient rooms and over 200 additional parking spaces. Centennial Hills Hospital has also added biplane angiography capabilities to treat stroke and other neurosurgical diseases, an advanced Wound Care and Hyperbaric Center, and another 12 mother-baby rooms to meet increased demand for maternity services.

The emergency department often serves as its front door, with more than 55,000 patients seen on an annual basis. Major emergencies, such as strokes and heart attacks, as well as minor emergencies are treated at the facility.

Centennial Hills Hospital features a comprehensive women's center offering care for women at every stage of life. The program also supports alternative delivery models including midwifery. Infants who require advanced medical care spend time in the hospital's Level III Neonatal Intensive Care Unit (NICU). Digital mammography and advanced diagnostic testing are also available.

For those who need surgery, two da Vinci® Robotic Surgical Systems can be used for abdominal, gynecological and urological cases.

And, for people who may require therapy after surgery, Centennial Hills Hospital offers an outpatient therapy center to assist with the recovery and rehabilitation.

Centennial Hills Hospital also offers an established neurology and neurosurgical service line. The facility is accredited by the Joint Commission for Stroke Care.

Centennial Hills Hospital is a member of The Valley Health System, an integrated system of care comprised of hospitals, physician practices, and outpatient services.

Desert Springs Hospital

Desert Springs Hospital, located just minutes from the famed Las Vegas Strip, McCarran Airport, UNLV and the Thomas & Mack Arena, is well-equipped to handle the many emergencies of both residents and tourists from around the world.

Many of the services at Desert Springs Hospital focus on some aspect of cardiovascular care. Along with advanced cardiovascular services such as open heart surgery and balloon angioplasty, Desert Springs Hospital features a robotic electrophysiology lab, allowing physicians to fix arrhythmias in a minimally invasive matter.

Additionally, the hospital features a major weight-loss (bariatric) surgery program; an inpatient acute rehabilitation unit for patients recovering from a major illness and injury; and a geriatric behavioral health unit for adults 55 and older who need both medical and behavioral assistance. Outpatient services include cardiac rehabilitation, diabetes education, and an advanced wound healing and hyperbaric medicine center, uses specific techniques and 100 percent oxygen therapy, respectively, to heal chronic wounds.

Desert Springs Hospital is a member of The Valley Health System, an integrated system of care comprised of hospitals, physician practices and outpatient services.

Henderson Hospital

Currently, Henderson Hospital is undergoing a \$24 million expansion that includes the addition of a 25-bed observation unit adjacent to its ER; a secondary CT scan; the shelling out several more surgical suites, and additional enhancements to the emergency department entrance and lobby areas. The observation unit should be ready for patients by the late summer.

Our commitment to outstanding care is reflected in several nationally recognized achievements, including:

- › 2018 and 2019 Top General Hospital by The Leapfrog (one of only 37 in the nation)
 - › Fall 2018, Spring 2019, Fall 2019, Spring 2020 "A" Hospital Safety Grade by The Leapfrog
 - › 2020 Women's Choice Award® as one of America's Best Hospitals for Patient Safety
- We are also proud of several accreditations focused on the rapid triage, diagnosis, treatment and outcomes of heart attacks and stroke:
- › Primary Stroke Center accreditation by The Joint Commission
 - › Chest Pain Center accredited by Percutaneous Coronary Intervention (PCI) by the Society of Cardiovascular Patient Care
 - › 2019 Get with the Guidelines Stroke – Gold Award by The American Heart Association (AHA)
 - › 2019 Mission: Lifeline® Silver Receiving Quality Achievement Award by the AHA

We want Henderson Hospital to be different from other hospitals in the community. That's why our staff is dedicated to providing the highest level of care and compassion to you and your family, and we appreciate the opportunity to be your hospital of choice.

Mesa View Regional Hospital

Mesa View Regional Hospital is a 25-bed acute care facility located in Mesquite, Nevada with skilled professional staff that offers award-winning quality and patient-focused care. Mesa View provides a broad range of inpatient and outpatient hospital services including an Intensive Care Unit, Medical, Surgical, Orthopedics - Total Joint Replacement Program, Women's Health, Laboratory, Cardiopulmonary Testing, Wound Care and Hyperbaric Center, Imaging and Emergency Medicine services. Mesa View is an Accredited Chest Pain Center by the American College of Cardiology.

Mike O'Callaghan Military Medical Center

Mike O'Callaghan Military Medical Center, or the The 99th Medical Group, is a 50-bed Air Force medical center providing medical care and support to maintain the combat readiness of Nellis and Creech Air Force Base personnel. Nellis boasts the Air Force's second largest TRICARE Prime enrollment population of more than 48,500 enrollees. The facility undergoes a comprehensive survey by The Joint Commission (TJC) and is pleased to hold full accreditation status. The last TJC accreditation survey was successfully conducted in January 2018.

In 2011, the Air Force Medical Service upgraded Nellis to a medical center, bringing significant additional resources to the Nellis community.

MountainView Hospital

Since 1996, MountainView Hospital has served the northwest Las Vegas Valley with patient-centered care. Established in one of the fastest-growing areas of the valley, MountainView opened with 120 beds. Today, MountainView has grown to more than 400 beds. With a dedicated and talented staff of employees and outstanding physicians, MountainView Hospital is recognized for high patient satisfaction and for providing quality and compassionate care to our community for more than two decades.

MountainView features nationally recognized programs including a top cardiovascular and thoracic center, the renowned Las Vegas Institute for Robotic Surgery, an Accredited Chest Pain Center and cardiology, Certified Stroke Center. Other areas of excellence include emergency care, urology, wound care, obstetrics and gynecological services, orthopedics, vascular care and an inpatient rehabilitation unit.

In 2016, MountainView evolved into a teaching hospital with the launch of the accredited Sunrise Health Graduate Medical Education Consortium, with nine residency programs and two fellowships across three hospital campuses. MountainView has twice been named (2018/2019) as a Top Teaching Hospital by the nationally recognized Leapfrog Group.

From interventional cardiology and electrophysiology, to open heart surgery and minimally-invasive surgery options, such as TAVR, MountainView is leading the way in providing a full-range of diagnostic and treatment options for all areas of cardiac and cardiovascular care. The hospital is home to MountainView Cardiovascular & Thoracic Surgery Associates, the premier comprehensive cardiovascular and thoracic surgery program in Southern Nevada and Las Vegas Heart Associates, a full-service cardiology practice.

MountainView's Las Vegas Institute for Robotic Surgery (LVIRS) is leading the way in the Las Vegas Valley for minimally invasive surgical options for patients. LVIRS offers an extensive panel of surgeons, pairing them with trained staff and nurses, who are part of dedicated robotic teams.

MountainView is home to the latest system in neurosurgery technology that allows surgeons to perform brain and spinal surgeries with targeted precision. MountainView offers a comprehensive neuroscience program, complete with a Joint Commission Certified Primary Stroke Center and surgical services for a number of conditions that impact the brain and spine.

MountainView also serves North Las Vegas with its hospital-based emergency room, ER at Aliante and will open a second hospital-based ER to serve the Skye Canyon area in far northwest Las Vegas. ER at Aliante is a full-service ER, serving the community of North Las Vegas.

MountainView Hospital is a member of the HCA Healthcare family of hospitals, which in Las Vegas includes Sunrise Hospital, Sunrise Children's Hospital, Southern Hills Hospital and several surgery, urgent care and diagnostic imaging centers offering a complete range of specialized and technologically advanced services.

St. Rose Dominican, Rose de Lima Campus

The original campus of the St. Rose system, the Rose de Lima Campus is now one of three Dignity Health-St. Rose Dominican acute care hospitals in Southern Nevada. From its inception in 1947 through today, the journey of St. Rose Dominican is one inspired by the timeless values of the Dominican Sisters of Adrian, whose remarkable legacy of service to the poor, sick and oppressed dates back centuries.

Today, more than 70 years after the arrival of the seven original Adrian Dominican Sisters, the Rose de Lima Campus remain a vital part of the Henderson community. Now a small hospital offering emergency services, diagnostic imaging, and inpatient services, the Rose de Lima Campus continues to provide care for all patients regardless of their ability to pay.

In the final stages of completing a major three-year transformation, the Rose de Lima Campus remains committed to continuing the healing mission of Dignity Health at this historic location. The 24-hour Emergency Department and Inpatient Hospital continues to provide care for the downtown Henderson community, amidst recently renovated space which is now home to more than 100 members of the Dignity Health Nevada administrative support staff.

Walk the halls of St. Rose and feel the history that is the foundation of our community.

St. Rose Dominican, San Martín Campus

The Dignity Health-St. Rose Dominican, San Martín Campus is the third St. Rose hospital facility in Southern Nevada, specifically located to serve the rapidly growing area of southwest Las Vegas, including Rhodes Ranch and Mountain's Edge. Since 2006, San Martín has followed the foundation established by the Adrian Dominican sisters who arrived in Henderson more than seven decades ago, providing unparalleled care for the body, mind and spirit, and taking hospital care in Southern Nevada to the next level.

The 147-bed, 30-acre campus includes a 24-hour, full-service Emergency Department, Surgical Suites, Cardiac Catheterization and Electrophysiology Lab, Diagnostic Imaging, Orthopedics, Cardiovascular and Neurologic Services, and a Wellness Outreach Center which offers life-long care for the entire family through a range of free and low-cost fitness and education classes.

San Martín Campus prides itself as a safe and comfortable place for families to grow. Selected by the readers of the Las Vegas Review-Journal as the 2019 Gold Winner in the Best Place to Have a Baby category of the Best of Las Vegas competition, San Martín is also one of the only hospitals in Southern Nevada with Laborists on duty 24/7 and Birthing Suites where mothers remain in the same room throughout Labor, Delivery, Recovery and Post-partum.

San Martín has also earned the prestigious Baby-Friendly designation, demonstrating adherence to the highest standards of care for breastfeeding mothers and their babies, based on evidence-based practices recommended by the World Health Organization and UNICEF.

In everything they do, the doctors, nurses and medical staff at San Martín carry on the tradition of humankindness and, as part of the community's only not-for-profit, faith-based health system, remain guided by the vision and core values of the founding Adrian Dominican Sisters since 1947.

Recent Awards/Certifications

- › Awarded Stroke GOLD PLUS Achievement Award from the American Heart Association and American Stroke Association for commitment and success in implementing a high standard of stroke care
- › Wound Healing & Hyperbaric Medicine Center at San Martín received the 2018 Healogics President's Circle Center of Distinction award for clinical excellence. Of the 621 Centers eligible for the award, only 10 Centers achieved this honor.

St. Rose Dominican, Siena Campus

Building on a foundation of more than seven decades of unparalleled care for the body, mind and spirit in Henderson and Las Vegas, the Dignity Health-St. Rose Dominican, Siena Campus will mark the 20th year of its healing mission in July 2020. The Siena Campus is Dignity Health's flagship hospital in Nevada.

Constantly growing and expanding to meet the medical needs of the community, in 2019 the Siena Campus opened the doors of the Dignity Health Rehabilitation Hospital, located just west of the main hospital. This 60-bed, private room hospital offers rehabilitation services for patients recovering from stroke, traumatic brain injury, amputation, neurological disorders, and spinal cord injury.

As southern Nevada's only not-for-profit, faith-based health system, Dignity Health-St. Rose Dominican has been guided by the vision and the values of the Adrian Dominican Sisters since 1947. As the Henderson and Las Vegas communities grow, the St. Rose Dominican health system and its nearly 4,000 employees continue the Sisters' healing mission of serving people in need.

Recent Awards/Certifications

- › Children's Miracle Network hospital for southern Nevada
- › Siena is one of only two hospitals in southern Nevada to achieve Baby Friendly Certification
- › Joint Commission Certificate of Distinction for Joint Replacement Knee and Hip

Southern Hills Hospital

Three time Best Hospital winner, Southern Hills Hospital provides the communities of southwest Las Vegas with emergency and pediatric emergency services with two ER locations, a behavioral health program, an accredited Chest Pain Center, a Certified Primary Stroke Center, a dedicated orthopedic and spine unit, OB-GYN, Level II NICU, diagnostic imaging, oncology and surgical services. Utilizing advanced digital technology and an accomplished medical staff, Southern Hills Hospital's advanced care and superior service make for better outcomes and an exceptional patient experience.

In 2020, Southern Hills Hospital broke ground on ER at S. Las Vegas Blvd. Joining ER at the Lakes, ER at South Las Vegas Boulevard will be the second edition to Southern Hills Hospital & Medical Center's free-standing emergency rooms. Unlike an urgent care, ER at South Las Vegas Boulevard will be staffed 24 hours a day, seven days a week by board-certified emergency room physicians, and nurses. The new facility will include around-the-clock laboratory testing, X-ray, CT scanning and ultrasound.

The hospital is a member of the respected Sunrise Health System consisting of Sunrise Hospital, Sunrise Children's Hospital, MountainView Hospital and several surgery and diagnostic imaging centers offering a complete range of specialized technologically advanced services.

- › American College of Radiology (ACR) accredited in MRI, computed tomography, ultrasound and nuclear medicine
- › Awarded three orthopedic certifications from The Joint Commission (hip and knee replacements and hip fracture programs)
- › Earned The Joint Commission certification for Alzheimer's disease program
- › Earned The Joint Commission certification for Sepsis

Spring Valley Hospital

Spring Valley Hospital, located in blossoming Southwestern Las Vegas, cares for thousands of patients each year. To accommodate the growing needs of the region, the ER at Blue Diamond, a freestanding emergency department, opened in September 2019.

As a tertiary care facility, Spring Valley Hospital offers advanced medical care in multiple areas. The emergency department uses both chest pain and stroke protocols for the rapid diagnosis, intervention and treatment of these diseases. If necessary, patients can undergo cardiovascular surgery, neurosurgery or even an interventional procedure for large vessel occlusions. Spring Valley Hospital also has the only cardiovascular hybrid OR and ability to perform transcatheter aortic valve replacement (TAVR) within The Valley Health System.

With continued growth in its primary service area, the maternity department delivers over 2,500 babies each year. Parents-to-be arrive through a private Birthplace entrance, and remain within the secure unit from arrival through departure. An antepartum unit is available for high-risk patients. Infants who require advanced medical care spend time in the hospital's level three Neonatal Intensive Care Unit (NICU), and "NICU graduates" are welcomed back to an annual reunion.

Based upon the age and lifestyle of its residents, a wide range of surgeries are available, including orthopedics, spine, general surgery and vascular surgery. With its daVinci® Robotic Surgical System, surgeons use the technology especially for abdominal, gynecological and urology procedures.

And, when patients need additional expertise to recover from a stroke, other major illness, or injury, they can easily transfer to the inpatient acute rehabilitation unit. An Outpatient Therapy Center is onsite, offering physical, occupational and speech therapy for adults and children. Additionally, a wound healing and hyperbaric center is also available on the hospital's campus to assist patients with chronic and/or non-healing wounds.

Spring Valley Hospital is a member of The Valley Health System, an integrated system care comprised of hospitals, physician practices and outpatient services.

Summerlin Hospital

As the only hospital in the 36-square-mile master-planned community of Summerlin, Summerlin Hospital, has continually added medical services to benefit more than 100,000 residents in the community and surrounding areas.

Along with emergency and urgent care, Summerlin Hospital features advanced cardiovascular services, cancer and orthopedic care, a robust surgical services program and a Children's Medical Center. The latter includes a separate pediatric emergency department; general and intensive care units; outpatient services for diagnostic procedures; and outpatient physical, occupational and speech therapy.

The Children's Medical Center is a natural complement to the busy maternity department, which delivers nearly 5,000 babies each year. A level three neonatal intensive care unit is readily available for high-risk, medically challenged and/or premature babies, and an annual celebration reunites former patients with staff and physicians.

The cardiovascular program features balloon angioplasty, cardiovascular surgery and other cardiac procedures. Patients may continue their recovery through an outpatient cardiac rehabilitation program.

Cancer services, including surgery and inpatient chemotherapy, are available for both adult and pediatric patients, with specialized nursing care units. Several cancer support groups are hosted at the hospital as well.

Patients also benefit from daVinci® Robotic Surgical Systems, which can be used for a myriad of procedures, including gynecological, obstetrical, urological, colorectal and abdominal procedures. Summerlin Hospital also performs a number of orthopedic procedures, offering pre-surgical education, a nurse educator on the orthopedic nursing unit, inpatient acute rehabilitation and outpatient physical and occupational therapy. The acute rehabilitation unit has the Gold Seal of Approval® for Stroke Rehabilitation Certification.

Summerlin Hospital is a member of The Valley Health System, an integrated system of care comprised of hospitals, physician practices, and outpatient services.

Sunrise Hospital & Medical Center and Sunrise Children’s Hospital

Sunrise Hospital and Medical Center and Sunrise Children’s Hospital offer high quality, patient-centered healthcare to the residents of Southern Nevada, its surrounding region and the millions of visitors that come to Las Vegas.

Sunrise Hospital serves as Nevada’s largest acute care facility and Level II Trauma Center, which is located just minutes away from the Las Vegas Strip. On the same campus is Sunrise Children’s Hospital, Nevada’s largest most comprehensive children’s hospital. Together, both facilities offer a full range of services for both children and adults.

The Heart Center at Sunrise Hospital offers the most advanced cardiac care and features an Accredited Chest Pain Center. The Nevada Neurosciences Institute – home to the region’s first Joint Commission Certified Advanced Comprehensive Stroke Center – provides world-class care for stroke, epilepsy, multiple sclerosis and other neurological conditions.

We offer Nevada’s only pediatric Open Heart program and pediatric Cardiac Intensive Care Unit (CICU) as well as Nevada’s largest level III Neonatal Intensive Care Unit (NICU) and Pediatric Intensive Care Unit (PICU). The Breast Center at Sunrise Hospital is the only breast center in Southern Nevada accredited by the National Accreditation Program for Breast Centers (NAPBC). We also feature a certified Cancer Center, a dedicated Pediatric Emergency Department; Southern Nevada’s only Accredited Inpatient Rehabilitation Unit; 24/7 in-house Pediatric Intensivists and Obstetricians; and Robotic-Assisted Surgery.

Sunrise Hospital and Sunrise Children’s Hospital are members of the respected Sunrise Health System comprising MountainView Hospital, Southern Hills Hospital and several surgery, urgent care and diagnostic imaging centers offering a complete range of specialized and technologically advanced services.

University Medical Center

Combining highly specialized, exclusive services with the latest breakthroughs in medical technology, UMC offers the highest level of care available in Nevada. In support of the hospital's mission to provide patients with the best possible medical outcomes, UMC offers Nevada's only Level I Trauma Center, only Designated Pediatric Trauma Center, only Verified Burn Care Center and only Center for Transplantation.

Providing care to the community's most critically injured patients, the UMC Trauma Center offers a world-class team of medical professionals who have dedicated their careers to saving lives. Serving patients in a vast, 10,000-square-mile area, the UMC Trauma Center cared for approximately 12,000 patients in 2019 alone.

The UMC Lions Burn Care Center stands as one of the few hospitals across the nation to receive verification as a Burn Center from the American Burn Association and the Committee on Trauma of the American College of Surgeons. This achievement recognizes the UMC Lions Burn Care Center's commitment to providing patients with the highest level of burn care.

In recent years, UMC has firmly established its position as a statewide leader in surgical technology, becoming the most sophisticated hospital in Nevada while providing patients with access to cutting-edge procedures and diagnostic tools. UMC Children's Hospital recently became the first and only hospital in the state to offer a Pediatric Robotic Surgery Program, utilizing the advanced da Vinci Xi Surgical System to improve young lives.

UMC is also first and only hospital in Nevada to offer the ExcelsiusGPS robotic navigation platform, allowing for minimally invasive spine surgeries designed to result in less blood loss, less muscle damage and potentially faster recovery.

UMC's robust health care system also includes Primary Care and Quick Care locations throughout the Las Vegas Valley, providing convenient, accessible health care to community members. To further support the health of Southern Nevada, the hospital offers the Healthy Living Institute at UMC, providing complimentary classes focused on integrative healing practices and evidence-based health care.

UMC continues to grow and evolve to meet the unique needs of the community, implementing a cutting-edge electronic health record system. UMC now utilizes Epic across its campus and off-site clinics, providing new levels of efficiency and convenience to patients. The implementation of Epic allowed UMC to introduce the UMCConnect mobile app and website, which helps patients easily communicate directly with their doctors, access test results, schedule appointments and request prescription refills, in addition to other valuable tools.

UMC Offers Nevada's Only:

- › Level I Trauma Center
- › Designated Pediatric Trauma Center
- › Verified Burn Care Center
- › Center for Transplantation

Valley Hospital

Since 1971, the health care professionals of Valley Hospital have prided themselves on providing excellent care to their patients. Located in the heart of the Las Vegas Medical District (LVMD) near the government centers and The Smith Center for Performing Arts, it is the founding hospital of The Valley Health System.

In 2020, Valley Hospital begins its 14th year as a teaching hospital. The Graduate Medical Education Program at Valley Hospital consists of residency programs in four specialties: Internal Medicine, Family Medicine, Neurology and Orthopedic Surgery as well as two advanced training programs in Gastroenterology and Pulmonary Critical Care Fellowships. The Graduate Medical Education programs at Valley Hospital are accredited by the Accreditation Council for Graduate Medical Education (ACGME) as well as the American Osteopathic Association (AOA). Under the supervision of experienced faculty members, 90 residents and fellows provide evidence based patient care in addition to pursuing scholarly activity and research benefitting our local community. In 2017, Valley Hospital expanded its education program with the addition of a Pharmacy residency program. Valley Hospital's medical education programs provide quality medical care while developing highly qualified physicians and pharmacists, many of whom remain in Southern Nevada upon completion of the program.

As a tertiary care facility, Valley Hospital provides advanced cardiovascular, interventional neurological, and neurosurgical services. Physicians began performing open heart surgery in the late 1970s. The hospital's continued emphasis on cardiovascular care continues with interventional cardiac procedures including balloon angioplasty, vascular procedures, and heart pumps to improve patients' outcomes. Valley Hospital is committed to staying at the forefront of technology. Two Cath Labs now offer advanced technology for both EP and interventional cardiology procedures. The department also includes a modern patient waiting area, a check-in area and a physician and family consultation room.

Meanwhile, neurosurgeons perform complex endovascular and spine surgeries, while interventional radiologists carry out intricate neurological procedures in the biplane angiography lab. Patients who are recovering from a stroke, other major injury, or surgery can transfer to the acute rehabilitation unit on the fourth floor for more intensive therapy to aid in their recovery.

A wide range of surgical procedures are also performed at the hospital, with patients benefitting from Da Vinci® XI Robotic Surgery Technology used especially for abdominal, colorectal, gynecological, and urological surgery. Those requiring inpatient care, are directed to one of several nursing units tailored to their particular post-surgical needs.

As part of the continuum of care, patients and community members can utilize the Advanced Wound Care & Hyperbaric Center for chronic and hard-to-heal wounds

Valley Hospital is a member of The Valley Health System, an integrated system of care comprised of hospitals, physician practices, and outpatient services.

VA Southern Nevada Healthcare System

VA Southern Nevada Healthcare System (VASNHS) provides outpatient and inpatient medical services to Veterans residing in Southern Nevada, within an official catchment area of Clark, Lincoln, and Nye Counties. VASNHS also draws Veterans from Arizona, Utah, and California.

Primary and Specialty Care services are disbursed among several clinical sites within the Las Vegas Valley, including the Northwest VA Clinic, Northeast VA Clinic, Southwest VA Clinic, and Southeast VA Clinic. The Pahrump VA Clinic is a Community Based Outpatient Clinic which provides rural health care to Veterans residing in Nye County, and the MCPO Jesse Dean VA Clinic in Laughlin is a rural outreach clinic which serves Veterans in southern Clark County.

The health care system opened a comprehensive medical center in 2012, that provides specialty and inpatient services. Inpatient services include 102 Medical, Surgical, Psychiatric, ICU, Step-Down and Rehabilitation beds. An Emergency Department is located at the medical center. In 2019, the VA added the Las Vegas VA Residential Recovery and Renewal Center (LVR3), a brand new, 20-bed substance use and gambling residential treatment program, which is the VA's first residential program in Southern Nevada and second residential gambling addiction recovery center in the nation.

The VA Southern Nevada Fisher House opened on the main medical center campus in 2016, and provides temporary lodging to families of Veterans or active-duty service members undergoing inpatient or extensive outpatient treatment in the Las Vegas Valley.

VASNHS maintains a joint venture with the Department of Defense's 99th Medical Group at the Mike O'Callaghan Military Medical Center (MOMMC) at Nellis Air Force Base. VASNHS also maintains a Community Resource and Referral Center (CRRC) for homeless and at-risk Veterans and a Veterans Recovery Center (VRC).

Awards & Accreditations

- › VASNHS is accredited by The Joint Commission, Commission on Accreditation of Rehab Facilities (CARF) and The College of American Pathologists.
- › VASNHS was recognized nationally in 2019, becoming the first medical facility in Southern Nevada and the first VA health care facility in the Southwestern United States to earn a "Pathway to Excellence" designation by the American Nurses Credentialing Center.
- › In 2019, VASNHS was designated a "Leader in LGBTQ Healthcare Equality" by the Human Rights Campaign for the third year in a row. VASNHS was the only medical facility in the entire State of Nevada to receive this designation in 2019.
- › VASNHS received the 2019 Federal Energy and Water Management Director's Award for collaboration on developing the Federal Energy Management Program's Technical Resilience Navigator for Systematic resilience planning.

Note: Overall Rating - based on health inspections, quality of resident care measures and staffing. Star ratings for each part and for the overall rating range from 1 to 5 stars, with more stars indicating better quality; Health Inspections - based on a nursing home's weighted score from recent health inspections. More stars means fewer health risks; Quality Measures - based on data from a select set of clinical data measures. More stars means better quality of care; Staffing - based on the nursing home's staffing hours per resident per day for Registered Nurses (RNs), Licensed Practical Nurses (LPNs), Licensed Vocational Nurses (LVNs), and Nurse Aides. More stars means a better level of staffing per nursing home resident. N/A¹ - Newly certified nursing home with less than 12-15 months of data available. N/A² - Not enough data available to calculate a star rating. *This facility either didn't submit staffing data, has reported a high number of days without a registered nurse onsite, or submitted data that couldn't be verified through an audit. **This nursing home has been cited for abuse. 1-Much Below Average; 2-Below Average; 3-Average; 4-Above Average; 5-Much Above Average. Data as of June 24, 2020. In October 2019, several changes were made to the Nursing Home Compare website and the Five-Star Quality Rating System. These changes affected the health inspection and quality measure domains. For local calls in the Las Vegas area, dial (702).

Building a Healthier Southern Nevada *Together*

Over many decades, through both good times and times of crisis, Southern Nevada has persevered and thrived. Our community's innovation, commitment and vision has helped us overcome all challenges. And together, we are doing it again. As we move forward, Comprehensive will continue to provide world class cancer care right here in Southern Nevada. We will continue to conduct breakthrough research. We will proudly remain dedicated to our community support efforts. And we have no doubt that we will be just one of many who come together to build a stronger economy and healthier Southern Nevada.

Las Vegas HEALS: A Perspective

Diego Trujillo
CEO

What is on the horizon for healthcare in Las Vegas?

Las Vegas HEALS has a keen interest in the expansion of Las Vegas' healthcare landscape. We are often called upon locally and nationally to serve as a neutral spokesperson's for the city's recent successes as well as provide an informed glimpse towards the future.

The new UNLV School of Medicine will be enrolling its fourth class in the summer of 2020, achieving its full complement of students; in 2019, Touro University Nevada expanded its class size to 181 and Roseman University College of Medicine will soon enter the accreditation process. All are attracting faculty for Graduate Medical Education (GME), with 8 hospitals now hosting physician residency, fellowship, nursing and specialty programs designed to empower future graduate of our medical school. Statistics from other cities indicate 70% of physicians begin practice in the city in which they completed their final training, so having more GME programs in Las Vegas will play an integral role in growing a physician workforce, bringing our physician ratio to parity with the rest of nation.

Since the 2017 opening game of the Vegas Golden Knights and the unprecedented rush at the Stanley Cup by a first-year expansion team, the Las Vegas professional sports scene has exploded to include professional football, basketball, soccer, lacrosse and more, giving rise to myriad opportunities for the healthcare industry from caring for professional athletes to educating the city's youth on safe play and injury management.

The Las Vegas Medical District (LVMD), containing two teaching hospital (University Medical Center and Valley Hospital Medical Center), will become the future home of UNLV School of Medicine. Meanwhile, in the City of Henderson, the vision of East Side Medical Corridor has progressed with the development of the new Henderson Hospital and Union Village.

Nevada, and especially Las Vegas, has identified healthcare as a top priority and is executing an ambitious plan with competitive talent along with infrastructure to deliver growth for becoming a global leader in healthcare employment, tourism, innovation as well as research.

Make Your Space Work

ISOLATION & PRIVACY SOLUTIONS

American-made modular solutions that work within current plans. No build outs, permits nor headaches required.

MEDICAL

Exam Pods isolate patient testing for hassle-free disinfection so medical professionals can focus on what they do best.

- Negative pressure HEPA filtration
- UV-C skylight for disinfection
- Antimicrobial walls

OFFICE

Phone booths and meetings rooms provide isolated and acoustically sound workstations — essential for peace of mind.

- Video conferencing
- Meeting Rooms
- Private Communications

Economic Development

Las Vegas Global Economic Alliance

The Las Vegas Global Economic Alliance (LVGEA) is a 501(c)(6) nonprofit membership organization dedicated to developing the economies of Las Vegas, Clark County, Henderson, North Las Vegas, Boulder City, and Mesquite through regional cooperation, global trade, and global connectivity. LVGEA is the author of Southern Nevada's Comprehensive Economic Development Strategy (CEDS), a document that was recognized by all municipal governments in the region as the official economic development plan of Southern Nevada. The plan aligns with the State Economic Development Plan, and directs local governments and community organizations to focus their business recruitment and expansion efforts on the following industry clusters:

- › Business Headquarters and Services
- › Emerging Technology
- › Logistics, Manufacturing and Supply Chain Management
- › Autonomous Systems
- › Finance, Banking and Insurance
- › Destination Health Care and Medical Services
- › Gaming, Tourism and Conventions

LVGEA received its primary support from private sector investors and the State of Nevada.

Established: 2013

Leadership:

- › Jonas Peterson, President and Chief Executive Officer
- › Jared Smith, Chief Operating Officer

Employees: 14

Mission: To grow the economy in Southern Nevada through connectivity, community development, and aggressive business recruitment, retention, and outreach.

Services Provided: In-depth market information, business recruitment, business retention and expansion, assistance with tax incentives, economic development marketing, public policy, and research.

Address: 6720 Via Austi Parkway, Ste. 330, Las Vegas, NV 89119

Website: lvgea.org

LVGEA 50 Board of Directors

The LVGEA 50 is the largest business board in Nevada, made up of an impressive group of public and private sector leaders, dedicated to driving Southern Nevada's community and economic development efforts to help strengthen the region, create new jobs and spur capital investment. Learn more at lvgea50.org.

Target Industries

The Las Vegas Global Economic Alliance focuses on targeting industries that provide the most growth potential and help diversify the economy of Southern Nevada. Economic diversification enhances regional competitiveness in the global economy, while also helping attract and retain a talent pool that will further develop the region.

Logistics, Manufacturing and Supply Chain Management

The Southern Nevada landscape for manufacturing is marked by the strong tandem of the region's strategic geographic location and existing assets, including opportunities associated with leveraging development-ready land, industrial capabilities, regional connectivity and the state's business-friendly tax climate.

Emerging Technology

Southern Nevada is well positioned to leverage existing, foundational infrastructure and regional assets to accommodate additional growth as a western U.S. hub for technology, extending into sectors powering other high-growth categories such as autonomous systems, gaming, computer programming and more.

Business Headquarters and Services

Although a regional focus on "business headquarters and services" is often only an extension of business recruitment efforts directed toward other industries. Establishing this industry as a direct target for economic development reflects the strength of regional assets that can be leveraged toward the recruitment of business headquarters – regional headquarters or operations, U.S. locations for international companies and corporate headquarters – as well as the professional, technical, administrative and support services that serve as core inputs into business headquarters or operations and support service firms.

Autonomous Systems

As a region, Southern Nevada is positioned to aggressively pursue a substantial portion of economic activity driven by autonomous systems and accommodate the industry's growth through multiple avenues, including the manufacturing, testing and implementation of autonomous technologies in both hardware and software, with established vehicle-to-infrastructure (V2I) capabilities, a progressive public policy environment and existing plans for mobility solutions.

Finance, Banking and Insurance

The region's position as a leading convention and trade show destination brings global businesses from a wide array of industries to Southern Nevada on a regular basis and the region remains poised to leverage this opportunity to attract global capital across a variety of finance related activities including banking and insurance.

Destination Health Care and Medical Services

Unique opportunities exist in Southern Nevada to go beyond a more traditional supporting role in health care and pursue a more focused economic development strategy around health care services and medical education. These services are supported by a mix of assets and data-based trends, ranging from retirees choosing the region due to lower cost of living compared to nearby states, available amenities in areas like Laughlin and Mesquite, and large scale age-restricted planned communities in and around Las Vegas.

Gaming, Tourism and Conventions

As a tourism capital of the world, one of Southern Nevada's top-performing industries over time has been gaming, tourism and conventions. With such high employment levels and strong performance relative to that of the U.S., there is no doubt that the industry and its supporting activities will continue to drive economic growth in the region for years to come.

In 2019, the LVGEA's aggressive business attraction, expansion and retention efforts helped move Southern Nevada's economy forward. The numbers speak for themselves:

Business Assistance Programs

Business Assistance Programs

In partnership with the Governor’s Office of Economic Development and the local jurisdictions within Clark County, the Las Vegas Global Economic Alliance offers a variety of incentives to help qualifying companies locate and expand in the region. Programs include the following:

Sales and Use Tax Abatement

On qualified capital equipment purchases, with reductions in the rate to as low as 2 percent for a 2-year period.

Modified Business Tax Abatement

50 percent of the 1.475 percent rate on quarterly wages exceeding \$50,000 for a 4-year period.

Personal Property Tax Abatement

Up to 50 percent over a maximum of 10 years.

Real Property Tax Abatement for Recycling

Up to 50 percent abatement for up to 10 years on real for qualified recycling businesses.

Aviation Parts Abatement

Up to 50 percent on personal property tax and a reduction of sales and use tax to a rate of 2 percent for a 20-year period.

Data Center Abatement

Up to 75 percent on personal property tax and a reduction of sales and use tax to a rate of 2 percent for a 10 or 20-year period.

Silver State Works Employee Hiring Incentive

Provides employers up to \$2,000 for hiring state-qualified employee candidates.

Contact the Las Vegas Global Economic Alliance to learn how to qualify for these programs.

Certified B Corps in Nevada

Nevada is one of 30 states that offer companies the option to incorporate as benefit corporations. Benefit corporation status allows a firm to protect its social impact through capital raises and leadership changes, creates more flexibility when evaluating potential sale and liquidity options, and prepares businesses to lead a mission-driven life post-IPO.

Certified B Corps are companies that have achieved a minimum verified score on the B Impact Assessment, a certification standard developed and maintained by the nonprofit B-Lab. Certified B Corps are evaluated on their impact on the environment, their workers, their customers, and their communities; they also all meet the highest standards of accountability and transparency.

Business Assistance Programs

Established: 2012

Leadership: Michael Downs

Employees: 400+ direct; 900+ supported

Mission: We inspire people to live, work, and play through cultivating environments that encourage creativity, discovery, and WOW experiences. DTP is dedicated to helping revitalize part of downtown Las Vegas through investment in small businesses; tech startups; real estate and development; and arts, culture, and education. We are doing that by inspiring and empowering people to follow their passions to create a vibrant, connected urban core. Our goal and purpose is to help make downtown a place of Inspiration, Entrepreneurial Energy, Creativity, Innovation, Upward Mobility, and Discovery, through the Three C's of Collisions, Co-learning, and Connectedness in a long-term, sustainable way. **Services Provided:** Business recruitment, business financing, and community development

Economic Impact: DTP Companies businesses have created an estimated \$209.2 million in recurring output since 2012.

Website: dtplv.com

DTP Companies

Formerly conceptualized as “Downtown Project” in 2012, DTP Companies is the expanded product “beyond the project” of an all-encompassing \$350 million revitalization effort focused on Downtown Las Vegas (DTLV)—inspiring people to live, work and play through cultivating environments that encourage creativity, discovery and WOW experiences. DTP is dedicated to helping revitalize Downtown Las Vegas through investment in small businesses; tech startups; real estate and development; and arts, culture and education. Now going into its eighth year, DTP Companies serves as either an owner or investor to more than 300 businesses and legal entities by providing funding and support. DTP Companies represents the connectedness of downtown Las Vegas beyond streets and city blocks and strives to incorporate a one-of-a-kind diversity of people & businesses in its portfolio. DTP’s vision is to create a family in and out of its downtown workplace by coming together, embracing adventure, making ‘epic’ happen and striving to do what’s right.

Inspired and funded by Zappos CEO Tony Hsieh, DTP Companies also drives upward mobility and entrepreneurial energy through the pursuit of social collisions, co-learning and connectedness in a long-term, sustainable way.

Established: 2012

Leadership: Rob Roy, CEO and Founder of Switch

Mission: To boost and diversify the economy in the state of Nevada.

Services Provided: Collaborative workspace, meeting rooms, and event space.

Space Capacity: Conference rooms that accommodate up to 12 people, and event space that accommodates up to 150 people.

Highlights: Rob Roy’s Innevation Center sponsored close to \$400,000 in meeting space in 2019 for technology and STEAM related organizations and \$940,000 in membership and office space for emerging technology companies, totaling over \$1.3 million sponsored in 2019.

Website: innevation.com

Rob Roy’s Innevation Center

Rob Roy’s Innevation Center is a 65,000-square-foot collaborative workspace and community event venue driving Nevada’s new innevation economy, donated to the community by Switch Founder and CEO, Rob Roy.

As the most successful technology entrepreneur in Nevada’s history, Rob Roy created The Innevation Center as a result of his passion for enabling a more diverse Nevada economy. He fashioned the initiatives of Innevation after his patented, world renowned data center ecosystem, Switch. He is “paying forward” the success of Switch by helping to empower Nevada’s next generation of economic leaders.

Emerging tech companies, global powerhouse brands from Switch, economic developers, educators, community stakeholders, and universities collaborate at the Innevation Center to move Nevada forward. Collaboration occurs at events, Meetups, education series and in the everyday interactions of coworking members.

Nevada Taxes

Nevada Tax Climate

Offering one of the lowest tax burdens in the nation, Nevada is consistently cited by the likes of Forbes, Inc and Money magazines as having one of the best overall business climates in the nation. Nevada's tax structure is designed to be less burdensome to both business and its employees. The Tax Foundation rated Nevada as the No. 9 best state for business in 2019.

In Nevada there is NO...	
✗	Personal Income Tax
✗	Franchise Tax
✗	Unitary Tax
✗	Inventory Tax
✗	Inheritance Tax
✗	Estate Tax

less, fees for the Annual Filing are the same as for filing the articles of incorporation; however, the maximum fee is \$11,125. Non-par value stock is assigned a value of \$1 per share for the purpose of computing the fee. Fees are the same for domestic and foreign corporations. Fees are also imposed upon Limited-Liability Companies, Limited Partnerships, Limited-Liability Partnerships and Business Trusts. Contact the Nevada Secretary of State office for additional information.

ALCOHOLIC BEVERAGES

Excise tax on importation, processing, storing or selling of all liquor (including beer). Malt beverages are taxed at 16 cents per gallon and liquor is taxed from 70 cents to \$3.60 per gallon depending on the alcohol content. Sales tax is collected on the retail price. Annual state license fees range from \$75 to \$500 according to the type of business.

on businesses in their jurisdiction. The fee is generally based on the type of business (i.e., retail, professional, hotel, etc.)

BUSINESS REGISTRATION FEES

Fees for filing articles of incorporation or agreements of consolidation providing for shares apply in Nevada. The rate is based on the value of the shares with a minimum fee of \$75 and a maximum fee of \$35,000 (example: if the total value of shares is \$75,000 or less the fee is \$75; \$200,000 or less the fee is \$175; over \$1 million is \$375 plus \$275 for each additional \$500,000 or fraction thereof, not to exceed \$35,000). Except in the case of shares valued at \$75,000 or

CAR RENTAL

The state fee is imposed at 10 percent on the short-term rental of a passenger car. Both Clark and Washoe counties levy an additional 2 percent for authorized projects. Ten percent is remitted to the state general fund. Additional airport fees apply.

CIGARETTE/TOBACCO PRODUCTS

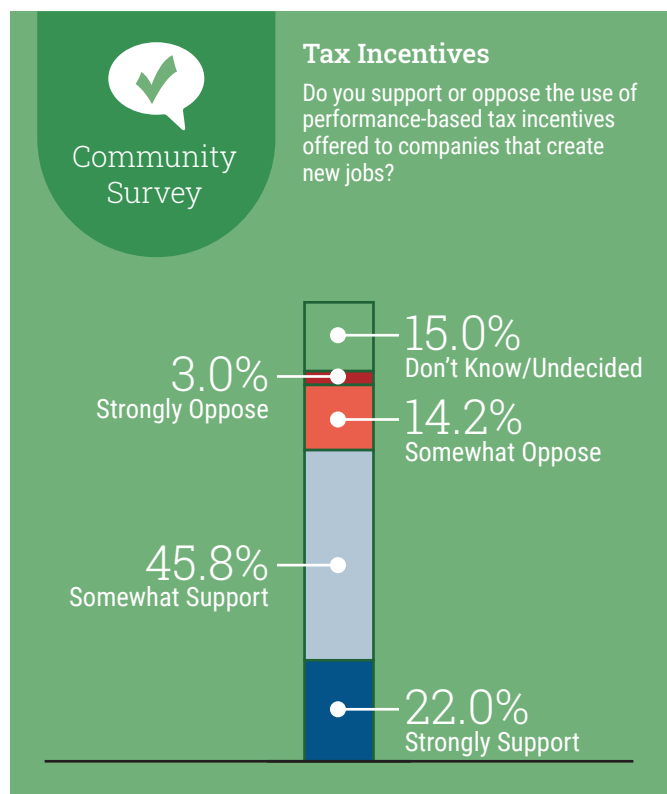

The excise tax on cigarettes is 9 cents per cigarette, which equates to \$1.80 cents per package of 20. Other tobacco products are taxed at 30 percent of the wholesaler's cost. Sales tax is also collected on the retail price.

BUSINESS LICENSE

A state license fee is paid annually. The fee is \$500 for domestic and foreign for-profit corporations, except Domestic Professional Corporations formed under NRS 89. The fee is \$200 for all other businesses. Counties and cities can also impose a business license fee

COMMERCE TAX

A new tax as of July 1, 2015, the tax is imposed on business entities doing business in Nevada. It is based on the Nevada gross revenue received by a business in a taxable year (July 1 through June 30). The rates of the commerce tax range from 0.051 percent to 0.0331 percent. The first \$4 million is subtracted from Nevada gross revenue. A 50 percent credit for the commerce tax paid is allowed against the modified business tax. As of June 13, 2019, businesses whose Nevada gross revenue for the 2018-2019 taxable year is \$4,000,000 or less, are no longer required to file a commerce tax return.

GAMING

There are five principal types of gaming taxes. Gross gaming revenue tax, table tax and slot taxes are levied by the state. In addition, gaming fees are levied by the county and local governments. For more information, contact the Nevada Gaming Control Board.

LODGING

A statewide tax of 1 percent of gross receipts is imposed on the rental of hotel and motel rooms. This is in addition to any locally imposed room taxes which range from 7 to 13 percent. In Clark County, the total combined rate ranges from 11 to 13.88 percent. An additional 1%, apportioned to the LVCVA Expansion (1/2 %) and the Stadium Construction Fund (1/2%) are effective March 1, 2017.

LIVE ENTERTAINMENT TAX

Imposed at locations where live entertainment is provided for which there is an admission, cover or table charge. The rate is 9 percent. For non-gaming establishments there is no tax imposed if the maximum occupancy is less than 200.

MODIFIED BUSINESS TAX

The tax is based on gross payroll paid in the calendar quarter and is imposed on businesses in Nevada that are required to make unemployment insurance contributions to the Nevada Department of Employment Security. General Business employers pay a tax rate of 1.475 percent on gross wages reported over \$50,000 in a quarter. Financial institutions and mining companies pay a rate of 2 percent. The employer can deduct any costs for providing a qualified employer-paid health care plan. A 50 percent credit for the commerce tax paid is allowed against the modified business tax.

MOTOR VEHICLE FUEL

Gasoline and gasohol are taxed at 23 cents per gallon. Additional county taxes range from 5 cents to 10 cents per gallon. Diesel, kerosene, biodiesel and biodiesel blends are 27 cents per gallon, liquid petroleum and butane are 22 cents per gallon, compressed natural gas is 21 cents per gallon and water-phased fuel is 19 cents per

gallon. Clark and Washoe counties index the tax for inflation based on the Producer Price Index.

MOTOR VEHICLES

Fees are annual and must be paid, at the time of registration, on all vehicles operated on any highway. For mopeds, the fee is paid one-time per owner.

GOVERNMENTAL SERVICE TAX

This tax is in lieu of personal property tax. The valuation of the vehicle is determined at 35 percent of the manufacturer's suggested retail price, without accessories. Vehicle value is depreciated to 95 percent after the first year and graduated down to 15 percent after nine years. Buses, trucks and truck trailers depreciate down to 85 percent after the first year and down to 23 percent after 10 years. The rate imposed by the state is 4 cents on each \$1 valuation. Counties may levy up to one cent on each dollar of valuation, but the total tax imposed cannot exceed 5 cents on each dollar of valuation.

REGISTRATION

Passenger cars, motorcycles, travel trailers, low speed and electric vehicles and trucks with a gross vehicle weight less than 6,000 pounds pay \$33 per year. Rates on trucks vary from a low of \$38 for a truck with a gross weight of 6,000 pounds to a maximum of \$1,360 for a truck with a gross weight of 80,000 pounds. Moped registration is a one-time fee of \$33 per owner.

PROPERTY

State statutes limit the property tax rate to a total of \$3.64 per \$100 of assessed valuation. Assessment is at 35 percent of taxable value. The tax is applied to the assessed value. Property tax rates may vary within the city and county, due to special districts or general improvement districts such as fire control districts, library districts and television districts. The tax bill is capped at a maximum increase of 3 percent over the prior year for an owner-occupied residence or a rental property with rent charged below the HUD Fair Market Rents, and a maximum increase of 8 percent for all other real and personal property.

REAL PROPERTY

Includes land, buildings and improvements not normally removable. The value for land is full cash value. The value for improvements is replacement costs less depreciation at 1.5 percent per year up to 50 years. The combination of these values is known as taxable value.

PERSONAL PROPERTY

Includes property not permanently affixed to land, such as business equipment and mobile/manufactured homes not converted to real property. Assessment is 35 percent of original cost less depreciation.

INDUSTRIAL INSURANCE

Industrial insurance is obtained through private insurance carriers, self-insurance or group self-insurance. For more information about self-insurance or group self-insurance contact the Nevada Division of Insurance.

INSURANCE PREMIUM

Insurers pay 3.5 percent of the total direct premiums written for the preceding calendar year covering property and other risks in the state. The tax is passed onto the consumer in the cost of the premium. Risk retention groups registered in Nevada but chartered in another state pay a rate of 2 percent. The tax is due on actual premiums received in the quarter with payment due 30 days following the end of the quarter.

SALES AND USE

Sales tax is charged at the retail level on the sale of tangible personal property unless exempt by statute. A companion "use" tax is charged on property purchased outside of Nevada and brought into the state for use. The authorized maximum combined State rate is 6.85 percent. Counties are allowed various options to pay for items such as transportation, roads, flood control and water. In Clark County, the total combined rate is 8.375 percent effective January 1, 2020. In Washoe County, the total combined rate is 8.265 percent effective April 1, 2017.

UNEMPLOYMENT INSURANCE

Paid by employers of one or more persons with total wages paid of \$225 or more during a calendar quarter. For the first 14-17 calendar quarters as an employer in Nevada, the total rate is 3 percent. Thereafter, it may vary from 0.25 percent to 5.4 percent depending on the number of employees and the firm's unemployment record. The maximum wage base upon which the rate is applied changes annually. For 2020, the maximum wage base is \$32,500.

UNIVERSAL ENERGY CHARGE

The tax is assessed on each therm of natural gas or kilowatt hour of electricity consumed in Nevada. The rate is 3.30 mills per therm of natural gas and .39 mills per kilowatt-hour of electricity. If tax collected exceeds \$25,000 in any calendar quarter, a refund for the amount over \$25,000 may be requested. The tax is distributed to the Welfare Division and is further distributed 25 percent to the Nevada Housing Division for weatherization. The Welfare Division uses the remaining 75 percent for energy assistance to low-income households. The tax is remitted within 30 days after the end of each calendar quarter. As a pass-through, the tax is itemized on each customer's billing statement as a separate line item.

Source: Nevada Taxpayers Association. **Note:** All rates effective as of January 1, 2020 except as noted.

Downtown Summerlin

Downtown Summerlin® is a 400-acre walkable, mixed-use urban core within the heart of the Summerlin® master-planned community located just east of the 215 Beltway between Sahara Avenue and Charleston Boulevard. The first phase, which opened in 2014, is a 106-acre outdoor retail, dining and entertainment destination.

Downtown Summerlin brings a strong line-up of retailers to the local Las Vegas community. Featuring a collection of first and only-in-market brands, the Downtown Summerlin experience is unique. In no other location in Southern Nevada can you live, work and play in an environment like this.

Shop at a dynamic mix of retailers—from Macy's, Macy's Backstage, Dillard's and Nordstrom Rack to Apple, Fabletics, Madewell, Crate and Barrel, Sephora, PGA Tour Superstore, lululemon, West Elm, H&M, Victoria's Secret and Trader Joe's. The options are endless. The property is also home to the luxury cinematic experience at Regal Downtown Summerlin 5, TruFusion, Dance Dynamics and Pure Barre, state-of-the-art workout facilities. On Saturdays from 9 a.m. – 2 p.m., the Las Vegas Farmers Market® takes place under the Pavilion.

Downtown Summerlin boasts an exciting collection of restaurants and eateries including Maggiano's Little Italy and California Pizza Kitchen. More than a dozen dining options are first-to-market including True Food Kitchen, Jing, Dave & Buster's, Wolfgang Puck Players Locker, Public School 702 and Makers & Finders to name a few.

The property is also home to City National Arena, practice facility for the National Hockey League's Vegas Golden Knights, and Las Vegas Ballpark®, a 10,000-capacity minor league baseball stadium. Downtown Summerlin boasts two Class-A office towers – ONE and TWO Summerlin - that encompass a combined 380,000 square feet. In addition to Downtown Summerlin's two luxury multifamily developments, Constellation and Tanager®, more than 4,000 attached residences are planned at Downtown Summerlin to create a high-density urban residential community comprised of apartments, condominiums, lofts and brownstones

Transportation Projects

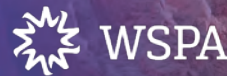

Local groups are studying possible transportation infrastructure needs in local major employment and tourism areas. Please rank the importance of transportation projects listed below

- 1 Extending the Las Vegas Monorail to McCarran airport (3.71)
- 2 Improving pedestrian flow on the Las Vegas Strip by constructing walkways at more intersections (3.77)
- 3 Programs that would pay employees on the Strip to take public transit to work rather than individual cars (3.77)
- 4 Light rail connecting UNLV, downtown Las Vegas and destinations in between (4.07)
- 5 Better staging areas for taxis, Uber/Lyft, and limousines at McCarran airport and major resorts (4.11)
- 6 A transit hub near the Las Vegas Strip serving the new convention center, providing easy taxi and other transit services to tourists and guests (4.13)
- 7 Improving pedestrian and transit connections to the Raiders Stadium (4.45)

Note: 1 is most important, 7 is least important. (Avg. Rank)

2019	264,260	1.3%

McCarran International Airport

McCarran International Airport is Southern Nevada's gateway to the world. With more than 30 airlines providing nonstop flights to more than 150 destinations last year, it was the ninth-busiest airport in North America and among the Top 30 Busiest Airports in the world.

In 2019, McCarran hosted more than 51.5 million passengers, 3.8 million of whom were from international destinations. McCarran is owned and operated by the government of Clark County, Nevada, which is overseen by the Clark County Board of Commissioners. Unlike other departments within the county government, the Department of Aviation is a self-sufficient enterprise and operates without County General Fund tax revenue. Airport revenue is derived from aviation and non-aviation sources, as well as Passenger Facility Charges and Airport Improvement Program grants.

For decades, the skyrocketing popularity of Las Vegas challenged the airport's infrastructure. Over time, more and more aircraft, cars and travelers have jockeyed for space within an airport whose initial developers never envisioned a time when more than 40 million passengers would become the annual norm. Airport expansions were delivered in the 1980s, 1990s, 2000s and most recently in 2012, with the opening of Terminal 3.

In recent years, international visitation has become an increasingly important priority. The opening of Terminal 3 in 2012 allowed McCarran to experience double-digit growth in international arrivals. Prior to the onset of COVID-19, McCarran handled nonstop flights to more than 30 international destinations, including cities in Canada and Mexico, as well as Asia and multiple markets in Europe.

Mission: Provide world-class water service in a sustainable, adaptive and responsible manner to our customers through reliable, cost-effective systems.

Services Provided: Treatment and delivery of wholesale water, regional water supply planning and management, water quality testing and compliance, and regional water conservation programs.

Website: snwa.com

Southern Nevada Water Authority (SNWA)

The Southern Nevada Water Authority (SNWA) is a not-for-profit, regional water agency established in 1991 to address Southern Nevada’s unique water needs on a regional basis. The SNWA is responsible for treating and delivering high-quality water, operating and managing regional water facilities, and implementing comprehensive water conservation programs. The wholesale water agency also maintains a 50-year water resource plan to ensure a secure water supply for Southern Nevada over the next half-century.

Sustainably using its water resources, Southern Nevada employs community-wide water reuse, reclaiming and returning nearly all water used indoors back to Lake Mead where it can be used again. Indoor water use accounts for about 40 percent of the community’s total water usage, while water used outdoors, primarily for landscape irrigation and evaporative cooling, accounts for about 60 percent.

SNWA’s flagship water conservation initiative, Water Smart Landscapes Rebate program (WSL), offers property owners \$3 per square-foot to converted grass to water-efficient, drip-irrigated landscaping. Since 1999, local residents and businesses have converted more than 193 million square feet of grass to water-efficient landscapes, saving the community a cumulative 130 billion gallons of water.

Increasing water efficiency in the commercial and multi-family home sectors, the SNWA’s Water Efficient Technologies (WET) Program provides financial incentives to businesses that incorporate water-saving appliances, fixtures, and other high-efficiency devices into their operations. The financial incentives help businesses offset costs and increase the return on making water-efficiency investments. Recognizing that being water smart is a wise investment, local businesses have saved more than 14 billion gallons of water through the WET program.

Regionally, Nevada, Arizona and California initiated the Lower Colorado River Basin Drought Contingency Plan (DCP). Under the terms of this landmark agreement, the Lower Basin States reduce Colorado River withdrawals to help protect water levels in Lake Mead, the source of 90 percent of Southern Nevada’s water supply. The agreement and related actions of the Lower Basin States reduce the risk of Lake Mead reaching critically low elevations by approximately 50 percent.

Even under ongoing drought conditions, Southern Nevada has sufficient resources to meet the community’s water needs well into the future. Continued conservation efforts by residents and businesses remains a critical component to managing current and future water resources.

SNWA member agencies include the Big Bend Water District in Laughlin; the cities of Las Vegas, Henderson, North Las Vegas and Boulder City; the Clark County Water Reclamation District; and the Las Vegas Valley Water District. Together, these seven agencies provide water and wastewater services to Southern Nevada’s two million residents and more than 40 million annual visitors.

Eight tips for small business cash flow management

Cash flow may be a key indicator of the financial health of your business. A consistent positive cash flow can help you pay expenses, invest in new opportunities, and grow your business. Get started with these tips:

1. Pay bills strategically.

Paying all your business bills at the same time may drain your cash, and potentially jeopardize your relationships with suppliers if you are unable to pay. Instead, you may want to review bills, sort according to priority, and stagger payment dates so the most important bills — such as rent and payroll — are paid first. Payments that are less important and more flexible can be made later.

Positive cash flow is critical to your financial success.

2. Choose the right payroll cycle.

Structure your payroll to mesh with your revenue stream and comply with wage and hour laws. There may be a benefit to holding the cash to be paid less frequently than weekly (e.g., biweekly or monthly), provided applicable wage and hour laws permit you to do so. Check with your state Department of Labor on the correct payroll frequency.

3. Negotiate your payments with suppliers.

Using suppliers with low prices may seem like a way to improve cash flow, but flexible payment options can be more important than bottom-shelf pricing. Ask your suppliers to offer extended payment terms so you can keep your cash longer.

4. Collect receivables quickly.

Improve your cash flow by encouraging quick receivables. These techniques can help you collect receivables faster:

- Request deposits when taking orders.
- Offer discounted prices to move outdated inventory.
- Offer discounts to customers who pay quickly.

5. Use technology to make and accept payments.

Accepting online payments may allow you to collect receivables faster, and using electronic fund transfers to automatically pay bills on the last day they're due may be helpful in managing cash flow. Technology should also help you keep track of where you stand.

6. Tighten credit practices.

If you offer credit to customers, stand firm on your credit policies to make sure you get the cash you need. Possible strategies you may want to try:

- Send invoices promptly, verify they've been received, and follow up right away on late payments.
- Require a credit check for all new customers before extending credit.
- Monitor your accounts to identify late-paying customers, and implement a cash-on-delivery policy for chronic offenders.

7. Use a business credit card.

Consider using a business credit card to pay for everyday expenses. Also, you may want to seek rewards programs that can reduce your expenses, such as a certain percentage back on some purchases.

8. Consider a line of credit.

Having a line of credit may help you prepare for anticipated and unanticipated cash shortages. It allows you to access a predetermined amount of cash quickly whenever you need it.

Make the most of your cash by monitoring expenses, collecting payments quickly, and using resources that can make your cash flow management more convenient.

Las Vegas Convention and Visitors Authority (LVCVA)

The Las Vegas Convention and Visitors Authority (LVCVA) is charged with marketing Southern Nevada as a tourism and convention destination worldwide, and also with operating the Las Vegas Convention Center. With nearly 150,000 hotel rooms in Las Vegas alone and more than 12 million square feet of meeting and exhibit space citywide, the LVCVA's mission centers on attracting ever increasing numbers of leisure and business visitors to the area.

The Las Vegas Convention Center (LVCC), located one block east of the Las Vegas Strip, opened in 1959 and encompasses approximately 3.2 million square feet with approximately 2.2 million square feet of convention space. The facility, one of the most modern and functional centers in the world, is centrally located a short distance from 100,000 guest rooms.

In addition to exhibit and convention space, 145 meeting rooms handle seating capacities ranging from 20 to 2,500. A grand lobby and registration area (more than 225,000 square feet) efficiently link exhibiting of multiple events.

The LVCVA has just launched Phase 2 of the Las Vegas Convention Center expansion, a major economic development project to expand and renovate the convention center. The 1.4-million-square-foot expansion will provide an additional 600,000 square feet of exhibit space and accompanying meeting rooms, public areas, and service facilities. It will also provide a full renovation of the existing facility. This expansion will help Las Vegas maintain its status as the No. 1 Trade Show and Convention Destination for years to come.

Data Collection and Limitations

Population and housing unit data were obtained from Clark County Comprehensive Planning. With regard to specific demographic characteristics reported, Applied Analysis generated estimates which are derived from various sources, including census-based estimates and other third party providers, which were benchmarked as necessary. Year-to-year comparisons are subject to sampling variability and the influences of the survey and research methods used. Data presented in this publication were obtained from various third parties, including public and private community sources. While we have no reason to doubt the accuracy of the data reported herein, the information collected was not subjected to any auditing or review procedures by Las Vegas Perspective; and therefore, we make no representations or assurances as to its completeness.

Community Survey Methodology

Three separate web-based surveys were commissioned by the Las Vegas Global Economic Alliance and conducted between March 6 and April 14, 2020. Respondents were selected from the current Clark County workforce and thus excludes retirees, students and other unemployed workers. The sample size of the survey was 500 with a margin of error of +/- 3.7 percent at the 90 percent confidence interval.

A Special Thanks to Supporters and Selected Data Providers

The Las Vegas Perspective would like to extend a special thanks to supporters and selected data providers:
